

# International Affairs, BA

---

**Director: Lowell Barrington, Ph.D.**

Interdisciplinary Major in International Affairs (<http://www.marquette.edu/inia/>)

The major offers an interdisciplinary study of international affairs. Students take core courses in international politics and economics and, for the major, additional courses in history, languages, culture and other areas to complete one of the following concentrations:

- Area Studies
- Cross-Cultural Studies
- International Political Economy
- International Political-Military Relations
- Peace Studies
- Individualized (students design a customized concentration)

Students gain a solid base of knowledge regarding international affairs and the ability to integrate the diverse perspectives of several disciplines to recognize subtle understandings of complex problems. For more information, visit the Interdisciplinary Major/Minor in International Affairs website (<http://www.marquette.edu/inia/>).

## Degree Requirements

The College of Arts and Sciences curricular requirements are organized around these essential components:

- The development of fundamental skills of critical inquiry, analysis and expression.
- The development of appreciation for the spiritual and creative dimensions of human life and culture.
- The development of a responsible commitment to the broader social and political communities in which we live.

The college challenges students to embrace, seek to understand and engage actively in the complexities of the world in which we live. Courses in the Marquette Core Curriculum (MCC), drawn from the different disciplines within the humanities, natural sciences and social sciences, provide multiple perspectives and methods of inquiry. The MCC serves as the foundation for the intellectual growth of our students as they pursue their majors and professional disciplines, and as they develop into men and women who dedicate their lives to the service of others.

Courses in the majors provide in depth knowledge and skills concerning a particular area of study. The college offers a wide variety of discipline-based majors in the Humanities (English, History, Philosophy, Theology and Languages, Literatures and Cultures); in the Social Sciences (Anthropology, Criminology and Law, Economics, Political Science, Psychology, Sociology and Social Welfare and Justice); and in the Sciences (Biology, Chemistry, Physics, Math, Statistics and Computer Science). In addition, a wide range of majors and minors are offered in interdisciplinary areas of study including Africana Studies, Bioinformatics, Cognitive Science and Gender and Sexualities Studies, among others.

The combination of courses required by the Marquette Core Curriculum and individual majors in the College of Arts and Sciences ensures that students are educated both broadly and deeply, in keeping with long-standing Jesuit educational ideals and principles.

## First-Year Seminar

Students are required to complete ARSC 1953 Exploring Arts and Sciences during the fall term of their first year at Marquette. Students in the Honors Program are exempt from this requirement. Advanced standing transfer students who have completed a similar course at another institution may ask the college to waive the requirement.

## Second Language Requirement

The Klingler College of Arts and Sciences requires knowledge of a language other than English for the bachelor of arts degree. This ensures that students are able to succeed in an increasingly globalized and rapidly changing world. The study of languages is the starting point for exploration and understanding of diverse cultures and traditions. Contacts between cultures happen in our own lives every day, and more often than ever before: knowing a second language is essential for being part of a global society. Our language programs in American Sign Language, Arabic, Chinese, French, German, Italian and Spanish prepare students to interact effectively and engage other people and cultures in the most human way possible. Students of Classical languages encounter Greek and Roman civilization as something that is very much a living part of our culture today (philosophy, theater, poetry, medicine, politics and much more).

Proficiency in a language other than English enables students to:

- Converse with ease and confidence when dealing with most routine tasks and social situations.
- Handle successfully many uncomplicated tasks and social situations related to work, school, recreation and personal interests.

- Begin to narrate and describe in the past, present and future time frames.
- Begin to describe how culture shapes and sustains identity, society and tradition.

## Assessment and Demonstration of Proficiency

Students are required to demonstrate proficiency in a second language at the intermediate level (usually requiring 0-15 credits of course work, depending on the student's proficiency upon entering the university), according to the standard of the American Council for the Teaching of Foreign Languages. Upon entering the university, students with previous study of a second language are assessed using a placement test. Those earning a score at the intermediate level are considered to have satisfied the second language requirement. Those who do not achieve proficiency through the test satisfy the requirement as follows:

Students studying **French, German or Spanish** typically complete courses 1003, and 2001 (or 2003), or 2001 (or 2003) only, depending on their language and score. True beginners should complete courses 1001 and 1002 instead of course 1003 where the option is available.

Students studying **American Sign Language, Arabic, Chinese, Greek, Latin or Italian** complete courses 1001 and 1002.

**Note:** The Marquette Core Curriculum does not have a second language requirement.

**Note:** The College of Arts and Sciences bachelor of science degree does not have a second language requirement.

## Bulletin Year and Degree Audit

Undergraduate students must meet the graduation requirements that are outlined in the Undergraduate Bulletin in effect the year in which they enter Marquette. Substitutions or waivers for specific courses that are required for degree completion may occur, as determined by the Klingler College of Arts and Sciences.

Students who interrupt their enrollment from the university follow the degree requirements from the bulletin in effect during the academic year of their readmission. In rare cases, the college may determine that readmitted students fall under a different set of degree requirements than the academic year in which they are readmitted. Policies and regulations in effect at the time of return apply to all students, regardless of the term of initial enrollment.

It is the responsibility of students to know and fulfill the requirements for graduation specified for the selected plan. Students are encouraged to use the Academic Advisement degree audit system, which is accessed via their Student Center and tracks courses that have been completed, as well as the Marquette Core Curriculum, college curricular requirements and major/minor requirements toward degree completion.

## Grade Point

- Earn a minimum grade point average of 2.000 for graduation.
- Achieve a 2.000 grade point average in all courses in the major or minor.

## Credit Hours

- Complete a minimum of 42 credit hours in upper-division courses, ten of these credits may be non-Marquette credits (lower-division courses are numbered 1000 to 2999; upper-division courses are numbered 3000 and above).

## Other Requirements for Graduation

- Complete the formal online application for graduation available in the CheckMarq Student Center (<https://checkmarq.mu.edu/>), by the specific term deadlines for application, as published in the Academic Calendar (<https://bulletin.marquette.edu/undergrad/academiccalendar/>).
- The college adheres to the University Commencement Policy (<https://bulletin.marquette.edu/policies/commencement/>).

Although most students can fulfill the Marquette Core Curriculum requirements, the college curricular requirements, their major requirements and elective courses without exceeding 120 credits, certain combinations of major and minor fields may require more than the minimum. Students are urged, therefore, to consult an adviser before selecting a major and any additional majors or minors.

*It is the responsibility of students to know and to fulfill all university, Klingler College of Arts and Sciences and major department requirements (See the corresponding sections of this bulletin for additional information regarding the Marquette Core Curriculum, university graduation and residency requirements, college curricular requirements and department major and minor requirements).*

## University Graduation Requirement

### Undergraduate Graduation Policy

Students are required to graduate at the end of the term in which all degree requirements are completed. Degree requirements are those requirements, including university, college and all other requirements necessary to earn a minimum of one undergraduate degree and any declared degrees/majors/minors/concentrations. That is, additional degrees/majors/minors/concentrations may be earned; however, they must be completed in the same term as the first degree/primary major is completed. Except in the case of readmission, undergraduate students must meet the graduation requirements which

are stated in the Undergraduate Bulletin issued for the year in which they entered Marquette. Substitutions or waivers for specific courses required for degree completion may occur, as determined by the college and/or the Marquette Core Curriculum committee.

Students who have interrupted their enrollment from the university, are normally obliged to follow the degree/major/minor/concentration requirements in effect at the time of readmission. Policies that are in effect at the time of the return, apply to all students, regardless of the term of initial enrollment. Students are responsible for keeping themselves informed of the requirements which apply in their particular cases. Students have faculty advisers available who assist in planning and implementing their plan of studies; however, it is ultimately each student's responsibility to know and fulfill the requirements for graduation specified for the selected plan. This should be done not only by utilization of specific advisers, but also with Academic Advisement, the university's online degree audit tool on CheckMarq provided to all undergraduates. With Academic Advisement, students track their degree progress until graduation. It is the responsibility of students to immediately bring any discrepancies found in Academic Advisement to the attention of their college.

A candidate for a baccalaureate degree must meet the following graduation requirements:

1. In all undergraduate colleges and programs, a minimum of 120 credits earned and a cumulative grade point average of 2.000 is required for a Marquette undergraduate degree.
2. Credits required to be completed in residence at Marquette:
  - a. A minimum of 45 total credits must be completed at Marquette. Up to 15 of the 45 credits may be completed through an approved study abroad program.
  - b. A minimum of 32 upper-division credits must be completed at Marquette. This may include upper-division credits from an approved study abroad program.
  - c. The final 30 credits needed to complete a Marquette undergraduate degree must be completed at Marquette, unless those credits are earned in an approved study abroad program, or are earned as part of a written/contractual agreement with another institution, in which Marquette students participate during the final year of their degree program.
  - d. A minimum of one-half of credits in the major, minor, and concentration not attached to a major must be completed at Marquette.
3. Students must attend all courses, lectures, or any other exercises that are required, even though, in some cases such activities receive no recognition in terms of credit hours.
4. Students' records must be cleared of all grades that are not permanent, i.e., grades of I, IC, IE and NG.
5. Students must file the online application for a degree by the deadline published in the Academic Calendar (<https://www.marquette.edu/central/registrar/calendars-exams-schedules.php>); however, because students are required to graduate at the end of the term in which all university, degree requirements are complete, the university reserves the right to graduate a student without a graduation application on file. If the university exercises this option, there is no guarantee students will be able to participate in Commencement.
6. Commencement is held in May, after the spring term. Participation in Commencement does not mean students are graduated. See the Commencement Policy (<https://bulletin.marquette.edu/policies/commencement/>) in this section for further details.
7. Exceptions to this Graduation Requirements policy must be approved by the Office of the Provost, except:
  - the course and bulletin year exceptions listed in the 'Graduation Requirements' section above (as approved by the college)
  - number 3 above (as approved by the college)
  - the dean's office in the college where the student's program resides may exempt up to 6 of the final 30 credits from being completed in residence (number 2c above)

For additional college requirements, consult the Degree Requirements listed for each undergraduate program in this bulletin.

**Special Note for 2023-2024:** Students who attended Cardinal Stritch University in a bachelor's degree program during the 2022-2023 year and directly transfer to a bachelor's degree program at Marquette University in Fall 2023 or Spring 2024 with fewer than 45 credits remaining in their Marquette program are exempted from the standard Marquette residency requirement (items 2-6 listed above). In lieu of the standard residency requirement, exempted students must complete all remaining credits for their undergraduate degree at Marquette. Exempted students are expected to remain continuously enrolled (fall and spring terms) at Marquette until the completion of their bachelor's degree.

## Graduation Latin Honors

The grade point average is used to compute graduation Latin honors. The computation is made by dividing the total number of grade points earned at Marquette University by the total number of grade point hours earned. The official Marquette GPA of all students is calculated by the student information system and this GPA is not rounded up or down for any reason. To graduate with Latin honors, candidates must be pursuing their first bachelor's degree, earned at least 60 grade point hours and 60 degree hours at Marquette University, normally as a junior and senior. First bachelor's degree is defined as the first bachelor's degree earned from any institution. When students earn a concurrent additional bachelor's degree (i.e., finish in the same term as the first bachelor's degree), the additional degree is also eligible for Graduation Latin Honors, if the first bachelor's degree qualifies.

Graduates whose grade point average is 3.500, graduate with cum laude (Latin for 'with honor'); graduates whose grade point average is 3.700, graduate with magna cum laude (Latin for 'with great honor'); and graduates whose grade point average is 3.900, graduate with summa cum laude (Latin for 'with highest honor'). Graduation Latin honors are recorded on diplomas, noted in the published lists of graduates at Commencement and recorded on students' transcript.

## Graduation Record

The academic record of students is frozen once the degree is posted and may not be altered thereafter, unless required to do so by law and/or a documented university error is discovered after the degree is posted. This includes, but is not limited to: all relevant grade point averages, grades, additional information relating to the degree(s), major(s), minor(s), concentration(s), Latin Honors and academic censure.

## Marquette Core Curriculum (MCC) - 30 Credits

### Foundation Tier - 15 Credits

### Discovery Tier - 12 Credits

Students must complete **four** Discovery Tier courses, all from the **same** Discovery Theme. These four courses must include one course from each of the three content areas (Humanities, Natural Science and Mathematics, and Social Science), and one elective (an additional course from any of the three content areas). A maximum of two courses in the Discovery Tier can be applied toward a primary major. Additional dual counting may be allowed towards college-level requirements.

Students declare their Discovery Theme using the Discovery Tier Declaration Form (<https://www.marquette.edu/central/registrar/how-do-i-declare-change-mcc-discovery-tier-theme.php>) in CheckMarq.

For students who participate in a full-time (12 credits or more) Marquette-approved study abroad program, one study abroad course (minimum 2.5 transfer credits awarded) may fulfill the elective requirement of the Discovery Tier. Any additional MCC requirements may be fulfilled only when the approved transfer equivalent is an exact match to a specific MCC course.

## Discovery Themes

The five discovery theme options are listed below. See additional information and course listings (<https://bulletin.marquette.edu/resources-opportunities/marquette-core-curriculum/#discoverythemestext>).

- Basic Needs and Justice
- Cognition, Memory and Intelligence
- Crossing Boundaries: The Movement of People, Goods and Ideas

## Grade Minimums & Additional Information

- A grade of C or better is required in Honors MCC courses. A passing grade is required in non-Honors MCC courses.
- Review the Marquette Core Curriculum (<https://bulletin.marquette.edu/resources-opportunities/marquette-core-curriculum/>) section of the bulletin for additional information, including transfer student requirements and Discovery Theme details.

## Interdisciplinary Major in International Affairs

The major consists of eleven courses (33 cr. hrs.), including six core courses (18 cr. hrs.), four concentration courses (12 cr. hrs.), and a capstone course completed in the student's final spring term (3 cr. hrs.). The major also requires demonstrated intermediate-level competency in a second language or a statistics course.

### Notes:

- Students pursuing the major must, at minimum, demonstrate a second-language competency at the intermediate level (equivalent to completing a 2002 or 2003 foreign language course at Marquette) or complete one of the following statistics courses: BUAD 1560, MATH 1700, SOCI 2060. Students are strongly encouraged to complete both the language and the statistics course work, as the professional field of international affairs demands competent linguistics as well as statistical literacy.
- Courses completed abroad may be used to fulfill concentration requirements with the approval of the program director.

## CONCENTRATION 1: AREA STUDIES

The Area Studies concentration narrows students' focus to one particular region of the world. By selecting courses focused on the history, culture, language, economic development and politics in one area, students become specialists in their region. This concentration is an excellent choice for students pursuing a particular language, immersive study abroad experience or hoping to pursue professional opportunities abroad.

## CONCENTRATION 2: CROSS-CULTURAL STUDIES

The Cross-Cultural Studies concentration provides students the opportunity to examine multiple cultures through a variety of disciplinary lenses such as anthropology, sociology and theology, while focusing on persistent themes such as human security, migration and revolution. Identifying patterns of change and stability resulting from global events and economic developments, students are equipped with critical analysis skills. These skills are in high demand in a globalized world in which a pandemic and climate change are possible.

### CONCENTRATION 3: INTERNATIONAL POLITICAL ECONOMY

The International Political Economy concentration focuses on issues related to economics, public policy and international development. A wide range of courses offers students the opportunity to focus on traditional topics (e.g., international trade, public policy and international finance), but also economic inequalities and hidden markets (e.g., human trafficking, illegal migration, illicit global economies and unequal access to health and natural resources). This concentration is an excellent choice for students pursuing careers in global policy or diplomacy.

#### CONCENTRATION 4: INTERNATIONAL POLITICAL-MILITARY RELATIONS

The International Political-Military Relations concentration explores the security dimensions of international affairs. Students gain a broader understanding of the increasingly complex political, economic and social issues that transcend national boundaries (e.g., a pandemic, cyber security breaches, unequal access to vaccinations and changing climate). Students learn about theoretical and policy issues affected by international politics and culture, the ideas and values that influence the behavior of state and non-state actors. Students also hone critical thinking, analytical and communication skills needed to successfully foster transnational relationships in an increasingly globalized environment.

## CONCENTRATION 5: PEACE STUDIES

The Peace Studies concentration examines international escalation, crisis and de-escalation as well as the cycle of conflict as it has occurred and continues to occur around the world, focusing on economic, religious and political clashes as well as competition for resources in a changing climate and pandemic. Students concerned with international injustice, humanitarian relief and nonviolence can pursue courses in international communication, anthropology, sociology, philosophy, as well as politics and economics to understand both the origins of conflicts and strategies used to resolve them.

## CONCENTRATION 6: INDIVIDUALIZED

The Individualized concentration allows students to work with their adviser and the program director to design their own curriculum. The depth and breadth of the interdisciplinary major in international affairs allows students greater range than any other major on campus. At a time when climate change, cyber security breaches and a pandemic are possible, the traditional international affairs curriculum can inadvertently limit the scope of study as the world changes faster than textbooks can be revised.

<sup>1</sup> The four courses in the Discovery Tier (DSCV) of the MCC must be completed in the same theme and include the following content areas: Humanities(HUM), Social Science (SSC), Natural Science and Mathematics (NSM) and one elective (ELE), which is an additional course from any of the three content areas. A maximum of two courses in the Discovery Tier can apply towards a primary major.

<sup>2</sup> Students must also complete the Writing Intensive (WRIT) and Engaging Social System and Values 2 (ESSV2) requirements of the MCC. These requirements can be fulfilled through designated courses in the Discovery Tier or other degree requirements.

**Note:** The course sequencing option above should be used as a guide. MCC courses may be taken in a different sequence depending on the chosen major and the availability of courses.

**Note:** A minimum of 120 credits is required for the degree.
