

# Academic Load

---

The academic load of a student is measured by credit hours assigned to each course. The normal undergraduate student load for business administration varies from 12 to 19 credit hours per term.

Request for permission to exceed 19 credit hours must be submitted through a Credit Overload (<https://www.marquette.edu/mucentral/registrar/documents/CreditOverloadRequest.pdf>) request form and letter of rationale to the assistant dean prior to registration.
