Admission and Readmission to the Graduate School of Management

Admission

Admission Status

Marquette University admits graduate students under four different categories: degree, non-degree, temporary and visiting scholar status.

Degree Status

When applicants are admitted to a program leading to a master’s degree, they are said to be in “degree status.” This designation is made after the department and the Graduate School of Management have accepted an application. An applicant may be admitted into one of two categories.

Regular degree status — Designates a student who is admitted to the Graduate School of Management and is working toward a master’s degree in a particular program. Students are eligible for tuition scholarships, graduate assistantships and fellowships.

Probationary degree status — This status is awarded to master’s degree students only by the applicant’s department or the Graduate School of Management. Probationary status is assigned when an applicant’s academic performance falls below Graduate School of Management standards but there is other evidence to suggest the potential for successful graduate level study. Students admitted on probation are not eligible to receive financial aid from the Graduate School of Management but may apply for financial assistance from the Office of Student Financial Aid. Probationary status is typically removed upon completion of nine semester hours of course work with a 3.000 overall GPA or better, no grade lower than a BC and all credits taken at the graduate level. Conditions of probationary degree status are specified on the admission letter. Students failing to have their probationary status removed after completing nine semester hours are not permitted to remain in the Graduate School of Management.

Non-Degree Status

Non-degree status is seldom utilized in the Graduate School of Management. This status designates any student taking graduate-level classes who is not seeking a master’s degree. Two types of non-degree status utilized by the Graduate School of Management are: Temporary admission and Visiting Scholars admission. Students are not eligible to receive financial aid from the Graduate School of Management or from the Office of Student Financial Aid except for Catholic Schools Personnel Scholarships and the Milwaukee Area Teachers Scholarsip.

All applicants are required to submit an application, the application fee, certified copies of transcripts and other information as requested by the department. Non-degree applicants seeking admission to degree status must meet the same admission standards as other applicants to a degree program.

Completion of any number of non-degree credits does not guarantee acceptance into a degree program, and, if a non-degree student is subsequently admitted to a degree program, there is no guarantee that credits earned while in non-degree status will count toward the degree. Most degree programs accept no more than six credits taken as a non-degree student. Grades below B will not transfer to degree programs but will remain in grade point calculations.

Credits earned as a non-degree student may be considered as graduate credits and certified as such to school boards or other authorities. Non-degree students may register for Graduate School of Management courses if they have met the prerequisites and have department permission. Permission numbers are required for non-degree registrations. The Graduate School of Management typically limits non-degree status to one term.

Probationary status — This status is awarded to the applicant’s department or the Graduate School of Management. Probationary status is assigned when an applicant’s academic performance falls below Graduate School of Management standards but there is other evidence to suggest the potential for successful graduate level study. Non-degree probationary status is typically valid for 1 semester only. A student is expected to meet requirements for and apply to degree status if the student anticipates continuing. Conditions of probation are included on the admission letter.

Temporary Admission Status

Applicants who have applied to a degree or a non-degree program, and meet the minimum admission requirements but have not submitted all the necessary documents may be admitted under temporary status. This admission is valid for only one term. Students must apply for and be admitted as a degree student before being allowed to register for additional courses. There is no guarantee that credits earned while in temporary status will count toward the degree. Grades below B will not transfer to the degree program but will remain in grade point calculations. Exceptions are rarely made to this policy.

Visiting Scholar Status

This status designates a student, seeking a master’s degree at another institution, who takes one or more classes at Marquette University with the intention of transferring the earned credits. Evidence of the student’s status and academic performance at the other institution will be required. Submission of official transcripts is required.
Visiting scholars may apply for federal financial aid through the student’s home school or through Marquette. Students applying for aid through Marquette must request a Consortium Agreement from the Office of Student Financial Aid. When the completed form is returned to Marquette, the student will become eligible for federal financial aid and the Office of Student Financial Aid will process the student’s FAFSA. Students applying for federal aid through their home institutions should consult their home institutions for their application policies and procedures.

General Admission Requirements

Only applicants whose total record indicates that they can make independent, original and high quality contributions to knowledge will be admitted. Departments reserve the right to limit the number of students accepted within a given time period. Applicants must follow the Graduate School of Management’s application for admission procedures. It is the applicant’s responsibility to obtain information about additional application requirements from the Graduate Programs section found in this bulletin or from the director of graduate studies for the proposed program.

Upon acceptance to the Graduate School of Management, F-1 students must adequately document their financial resources for the duration of the academic program before a visa will be issued. The added cost for express mail requests will be subtracted from the advance deposit. The express mail charge is non-refundable. The premium for the first term of health and repatriation insurance required of all F-1 and J-1 students will be deducted from the advance deposit. Students must be prepared to pay any remaining balance of the first term’s tuition when they arrive on campus. The advance deposit will be waived if the student receives a scholarship or other academic award that covers the cost of the first term’s tuition. Most international applicants are eligible only for regular degree status. Those seeking admission for non-degree status must obtain a statement of their legal eligibility from Marquette’s Office of International Education.

**Readmission**

**Readmission to First Master's Degree**

Students who have withdrawn from the university, failed to enroll for one or more academic-year terms, were administratively withdrawn from their program, or who were suspended for any reason must be formally readmitted to the Graduate School of Management before resuming their studies. To be readmitted, students must receive departmental endorsement and complete a new Application for Graduate School of Management Admission via the GSM website (http://business.marquette.edu/academics/gsm). The application for readmission from students who have been Required to Withdraw for Academic Reasons (academically dismissed), must include the Appeal Academic Dismissal/Satisfactory Academic Progress form found on the Marquette Central academic forms website (http://www.marquette.edu/mucentral/registrar/policy_forms.shtml). Furthermore, no application for readmission will be considered for any former student with an outstanding balance of $3,000 or more owed to the university. The associate dean of the Graduate School of Management and the Director of the Master's program jointly decide if a student will be readmitted.

In being readmitted, students face the possibility that previously completed work might not be accepted with the readmission decision, even if taken within the same program. The major department and/or Graduate School of Management may also set readmission conditions on the student’s resumption of work toward a degree such as registering for additional course work, retaking examinations, completing the degree within in a specified time period, or other appropriate terms.

Requests for readmission from students who have been suspended will be based on many considerations including the applicant’s ability, evidence of growth and maturity, credits earned at another institution, and time elapsed since leaving Marquette. No student may be readmitted to a program that is no longer active at the time of readmission.

**Earning a Second Master’s Degree**

Students already holding a Marquette master’s degree may earn a second Marquette master’s degree in another discipline following the application procedures stated in this bulletin.

During the first term of study for a second master’s degree within the Graduate School of Management, students must plan with their adviser, a program of study to successfully complete the second master’s degree. Between 9 and 15 credit hours may be transferred (courses must have been completed within the past 5 years with the grade of B or better) from a student's first master's degree at Marquette University depending on the total number of credits needed for the second master's degree. Department endorsement and Graduate School of Management approval must be obtained. All transfer credits must be relevant to the GSM degree. All program requirements for the second master’s degree must be successfully completed by deadlines posted in the bulletin, including the transfer of credit form, graduation application, and if required, the professional project or comprehensive exam, etc. to meet the requirements for the second master’s degree. (See Transfer of Credit for additional information.)
