College Resources

The Klingler College of Arts and Sciences is by its very nature the heart of Marquette University. We challenge students to explore many ways of understanding, doing and succeeding – regardless of the major they decide to pursue.

We recognize that as our students are faced with many challenges and opportunities. To assist students in their transition from high school to their college academic career, we offer numerous resources, which we encourage students to use. They help to develop the academic skills that are needed to succeed, as well as introduce students to the many faculty members, advisers and staff members throughout the college that are available to guide them as they discover the value of a liberal arts education.

Academic Success Workshops
The Klingler College of Arts and Sciences Advising Center sponsors a series of workshops to help first-year students achieve academic success. These workshops are offered every semester and focus on such topics as: stress management, major exploration, study skills, test taking techniques and time management.

Advising Center (http://www.marquette.edu/as/advising_index.shtml)
The Klingler College of Arts and Sciences Advising Center is a team of professional academic advisers committed to serving students and helping them achieve success. This center offers comprehensive assistance for each student’s development and is open five days a week all year long.

Students are assigned an adviser and receive service and support in a wide variety of ways. The advisers can assist students in choosing a major, determining career and academic goals, developing study skills, selecting courses and class schedule, referring them to other campus resources and preparing them for professional school.

Explore the Majors Fair
The Klingler College of Arts and Sciences Advising Center sponsors the annual “Explore the Majors” Fair to encourage and assist freshmen and sophomores who are undecided about their areas of study to explore the many majors and minors in the college. The “Explore the Majors” Fair provides an excellent opportunity for students to discuss majors and minors with faculty representatives, upperclassmen and alumni from every major area in the Klingler College of Arts and Sciences.

First-Year English Program (http://www.marquette.edu/english/first-year/index.shtml)
This program is designed to help students learn to communicate effectively. To that end, the program develops students’ reading, writing, speaking and listening skills via critical literacy, which is the ability to express ideas, values and beliefs effectively in a variety of situations. To foster Critical Literacy, the FYE Program offers a two-course writing sequence: ENGL 1001 Rhetoric and Composition 1 and ENGL 1002 Rhetoric and Composition 2.

Norman H. Ott Memorial Writing Center (http://www.marquette.edu/english/writingcenter)
The writing center offers one-to-one tutoring to all Marquette students, staff and faculty on all kinds of writing projects, from first year English papers to graduate theses, from history papers to personal statements for law school. The center is staffed with a mix of graduate students who usually teach a section of ENGL 1001 Rhetoric and Composition 1 or ENGL 1002 Rhetoric and Composition 2 and undergraduate peer tutors.

Student Organizations and Honors Societies
The Helen Way Klingler College of Arts and Sciences offers students a wide array of co-curricular opportunities to extend the value of their education. Student organizations and honor societies affiliated with the college and/or advised by one of our faculty members include:

Student Organizations
