

# Biochemistry and Molecular Biology, BS

---

The major in Biochemistry and Molecular Biology (BIMB) is offered jointly with the Department of Chemistry. Courses in biochemistry, cell biology, genetics, physical chemistry and quantitative analysis allow students to understand both complex biological phenomena and the underlying chemical mechanisms. Students majoring in Biochemistry and Molecular Biology can apply for the **Disciplinary Honors Program** in Biochemistry and Molecular Biology, which provides experiential learning opportunities such as independent research, internships, research-based laboratory courses and accompanying seminars.

## Degree Requirements

The College of Arts and Sciences curricular requirements are organized around these essential components:

- The development of fundamental skills of critical inquiry, analysis and expression.
- The development of appreciation for the spiritual and creative dimensions of human life and culture.
- The development of a responsible commitment to the broader social and political communities in which we live.

The college challenges students to embrace, seek to understand and engage actively in the complexities of the world in which we live. Courses in the Marquette Core Curriculum (MCC), drawn from the different disciplines within the humanities, natural sciences and social sciences, provide multiple perspectives and methods of inquiry. The MCC serves as the foundation for the intellectual growth of our students as they pursue their majors and professional disciplines, and as they develop into men and women who dedicate their lives to the service of others.

Courses in the majors provide in depth knowledge and skills concerning a particular area of study. The college offers a wide variety of discipline-based majors in the Humanities (English, History, Philosophy, Theology and Languages, Literatures and Cultures); in the Social Sciences (Anthropology, Criminology and Law, Economics, Political Science, Psychology, Sociology and Social Welfare and Justice); and in the Sciences (Biology, Chemistry, Physics, Math, Statistics and Computer Science). In addition, a wide range of majors and minors are offered in interdisciplinary areas of study including Africana Studies, Bioinformatics, Cognitive Science and Gender and Sexualities Studies, among others.

The combination of courses required by the Marquette Core Curriculum and individual majors in the College of Arts and Sciences ensures that students are educated both broadly and deeply, in keeping with long-standing Jesuit educational ideals and principles.

## First-Year Seminar

Students are required to complete ARSC 1953 Exploring Arts and Sciences during the fall term of their first year at Marquette. Students in the Honors Program are exempt from this requirement. Advanced standing transfer students who have completed a similar course at another institution may ask the college to waive the requirement.

## Bulletin Year and Degree Audit

Undergraduate students must meet the graduation requirements that are outlined in the Undergraduate Bulletin in effect the year in which they enter Marquette. Substitutions or waivers for specific courses that are required for degree completion may occur, as determined by the Klingler College of Arts and Sciences.

Students who interrupt their enrollment from the university follow the degree requirements from the bulletin in effect during the academic year of their readmission. In rare cases, the college may determine that readmitted students fall under a different set of degree requirements than the academic year in which they are readmitted. Policies and regulations in effect at the time of return apply to all students, regardless of the term of initial enrollment.

It is the responsibility of students to know and fulfill the requirements for graduation specified for the selected plan. Students are encouraged to use the Academic Advisement degree audit system, which is accessed via their Student Center and tracks courses that have been completed, as well as the Marquette Core Curriculum, college curricular requirements and major/minor requirements toward degree completion.

## Grade Point

- Earn a minimum grade point average of 2.000 for graduation.
- Achieve a 2.000 grade point average in all courses in the major or minor.

## Credit Hours

Complete a minimum of 32 credit hours in upper-division Marquette courses (lower-division courses are numbered 1000 to 2999; upper-division courses are numbered 3000 and above).

## Other Requirements for Graduation

- Complete the formal online application for graduation available in the CheckMarq Student Center (<https://checkmarq.mu.edu/>), by the specific term deadlines for application, as published in the Academic Calendar (<https://bulletin.marquette.edu/undergrad/academiccalendar/>).
- The college adheres to the University Commencement Policy (<https://bulletin.marquette.edu/policies/commencement/>).

Although most students can fulfill the Marquette Core Curriculum requirements, the college curricular requirements, their major requirements and elective courses without exceeding 120 credits, certain combinations of major and minor fields may require more than the minimum. Students are urged, therefore, to consult an adviser before selecting a major and any additional majors or minors.

*It is the responsibility of students to know and to fulfill all university, Klingler College of Arts and Sciences and major department requirements (See the corresponding sections of this bulletin for additional information regarding the Marquette Core Curriculum, university graduation and residency requirements, college curricular requirements and department major and minor requirements).*

## University Graduation Requirement

### Undergraduate Graduation Policy

Students are required to graduate at the end of the term in which all degree requirements are completed. Degree requirements are those requirements, including university, college and all other requirements necessary to earn a minimum of one undergraduate degree and any declared degrees/majors/minors/concentrations. That is, additional degrees/majors/minors/concentrations may be earned; however, they must be completed in the same term as the first degree/primary major is completed. Except in the case of readmission, undergraduate students must meet the graduation requirements which are stated in the Undergraduate Bulletin issued for the year in which they entered Marquette. Substitutions or waivers for specific courses required for degree completion may occur, as determined by the college and/or the Marquette Core Curriculum committee.

Students who have interrupted their enrollment from the university, are normally obliged to follow the degree/major/minor/concentration requirements in effect at the time of readmission. Policies that are in effect at the time of the return, apply to all students, regardless of the term of initial enrollment. Students are responsible for keeping themselves informed of the requirements which apply in their particular cases. Students have faculty advisers available who assist in planning and implementing their plan of studies; however, it is ultimately each student's responsibility to know and fulfill the requirements for graduation specified for the selected plan. This should be done not only by utilization of specific advisers, but also with Academic Advisement, the university's online degree audit tool on CheckMarq provided to all undergraduates. With Academic Advisement, students track their degree progress until graduation. It is the responsibility of students to immediately bring any discrepancies found in Academic Advisement to the attention of their college.

A candidate for a baccalaureate degree must meet the following graduation requirements:

1. In all undergraduate colleges and programs, a minimum of 120 credits earned and a cumulative grade point average of 2.000 is required for a Marquette undergraduate degree.
2. Credits required to be completed in residence at Marquette:
  - a. A minimum of 45 total credits must be completed at Marquette. Up to 15 of the 45 credits may be completed through an approved study abroad program.
  - b. A minimum of 24 upper-division credits must be completed at Marquette. This may include upper-division credits from an approved study abroad program.
  - c. At least 30 of the final 36 credits needed to complete a Marquette undergraduate degree must be completed at Marquette, unless those credits are earned in an approved study abroad program, or are earned as part of a written/contractual agreement with another institution, in which Marquette students participate during the final year of their degree program.
  - d. A minimum of one-half of credits in the major, minor, and concentration not attached to a major must be completed at Marquette.
3. Students must attend all courses, lectures, or any other exercises that are required, even though, in some cases such activities receive no recognition in terms of credit hours.
4. Students' records must be cleared of all grades that are not permanent, i.e., grades of I, IC, IE and NG.
5. Students must file the online application for a degree by the deadline published in the Academic Calendar (<https://www.marquette.edu/central/registrar/calendars-exams-schedules.php>); however, because students are required to graduate at the end of the term in which all university, degree requirements are complete, the university reserves the right to graduate a student without a graduation application on file. If the university exercises this option, there is no guarantee students will be able to participate in Commencement.
6. Commencement is held in May, after the spring term. Participation in Commencement does not mean students are graduated. See the Commencement Policy (<https://bulletin.marquette.edu/policies/commencement/>) in this section for further details.
7. Exceptions to this Graduation Requirements policy must be approved by the Office of the Provost, except:
  - the course and bulletin year exceptions listed in the 'Graduation Requirements' section above (as approved by the college)
  - number 3 above (as approved by the college)

For additional college requirements, consult the Degree Requirements listed for each undergraduate program in this bulletin.

## Graduation Latin Honors

The grade point average is used to compute graduation Latin honors. The computation is made by dividing the total number of grade points earned at Marquette University by the total number of grade point hours earned. The official Marquette GPA of all students is calculated by the student information system and this GPA is not rounded up or down for any reason. To graduate with Latin honors, candidates must be pursuing their first bachelor's degree, earned at least 60 grade point hours and 60 degree hours at Marquette University, normally as a junior and senior. First bachelor's degree is defined as the first bachelor's degree earned from any institution. When students earn a concurrent additional bachelor's degree (i.e., finish in the same term as the first bachelor's degree), the additional degree is also eligible for Graduation Latin Honors, if the first bachelor's degree qualifies.

Graduates whose grade point average is 3.500, graduate with cum laude (Latin for 'with honor'); graduates whose grade point average is 3.700, graduate with magna cum laude (Latin for 'with great honor'); and graduates whose grade point average is 3.900, graduate with summa cum laude (Latin for 'with highest honor'). Graduation Latin honors are recorded on diplomas, noted in the published lists of graduates at Commencement and recorded on students' transcript.

## Graduation Record

The academic record of students is frozen once the degree is posted and may not be altered thereafter, unless required to do so by law and/or a documented university error is discovered after the degree is posted. This includes, but is not limited to: all relevant grade point averages, grades, additional information relating to the degree(s), major(s), minor(s), concentration(s), Latin Honors and academic censure.

## Marquette Core Curriculum (MCC) - 30 Credits

### Foundation Tier - 15 Credits

Code	Title	Hours
ENGL 1001 or HOPR 1955H	Foundations in Rhetoric Core Honors First-Year Seminar	
PHIL 1001 or PHIL 1001H	Foundations in Philosophy Honors Foundations in Philosophy	
THEO 1001 or THEO 1001H	Foundations in Theology: Finding God in all Things Honors Foundations in Theology: Finding God in all Things	
CORE 1929 or CORE 1929H	Foundations in Methods of Inquiry Honors Foundations in Methods of Inquiry	
Engaging Social Systems and Values 1 (ESSV1)		

### Engaging Social Systems and Values 1 (ESSV 1) Course Options

Some faculty-led study abroad courses have also been approved for ESSV1, consult the MCC website (<https://www.marquette.edu/core-curriculum/mcc-study-abroad.php>) for a complete list.

Code	Title	Hours
ANTH 1001	Being Human	3
EDUC 1001	Child and Adolescent Development and Learning	3
ENGL 2020	Texts, Social Systems and Values	3
ENGL 2030	Global Literatures	3
HEAL 1025	Culture and Health <sup>1</sup>	3
HIST 1101	Introduction to American History	3
HIST 1601	Difference and Democracy	3
HIST 1701	Engaging the World	3
HOPR 2956H	Honors Engaging Social Systems and Values 1: Engaging the City	3
INGS 1001	Introduction to Gender and Sexualities Studies	3
SOCI 1001	Principles of Sociology	3
SOCI 1101	Advocacy for a Just World	3
SOWJ 1001	Introduction to Social Welfare and Justice	3
SOWJ 1101	Advocacy for a Just World	3
SPAN 3300	Peoples and Cultures of Spain	3
SPAN 3310	Peoples and Cultures of Latin America	3
THAR 2020	Theatre Appreciation	3

<sup>1</sup> Honors (H) designation of same course number also fulfills MCC requirement.

## Discovery Tier - 12 Credits

Students must complete **four** Discovery Tier courses, all from the **same** Discovery Theme. These four courses must include one course from each of the three content areas (Humanities, Natural Science and Mathematics, and Social Science), and one elective (an additional course from any of the three content areas). A maximum of two courses in the Discovery Tier can be applied toward a primary major. Additional dual counting may be allowed towards college-level requirements.

Students declare their Discovery Theme using the Discovery Tier Declaration Form (<https://www.marquette.edu/central/registrar/how-do-i-declare-change-mcc-discovery-tier-theme.php>) in CheckMarq.

For students who participate in a full-time (12 credits or more) Marquette-approved study abroad program, one study abroad course (minimum 2.5 transfer credits awarded) may fulfill the elective requirement of the Discovery Tier. Any additional MCC requirements may be fulfilled only when the approved transfer equivalent is an exact match to a specific MCC course.

## Discovery Themes

The five discovery theme options are listed below. See additional information and course listings (<https://bulletin.marquette.edu/resources-opportunities/marquette-core-curriculum/#discoverythemestext>).

- Basic Needs and Justice
- Cognition, Memory and Intelligence
- Crossing Boundaries: The Movement of People, Goods and Ideas
- Expanding Our Horizons
- Individuals and Communities

## Culminating Course - 3 Credits

Code	Title	Hours
CORE 4929	The Service of Faith and Promotion of Justice	
or CORE 4929H	Honors Service of Faith and Promotion of Justice	

## ENGAGING SOCIAL SYSTEMS AND VALUES 2 (ESSV2) - ONE COURSE or Experience Required

Students must complete a course or approved experience that is designated "ESSV2." This requirement can be completed via one of the four Discovery Tier courses or through other degree requirements.

Some faculty-led study abroad courses have also been approved for ESSV2, consult the MCC website (<https://www.marquette.edu/core-curriculum/mcc-study-abroad.php>) for a complete list.

## Grade Minimums & Additional Information

- A grade of C or better is required in Honors MCC courses. A passing grade is required in non-Honors MCC courses.
- Review the Marquette Core Curriculum (<https://bulletin.marquette.edu/resources-opportunities/marquette-core-curriculum/>) section of the bulletin for additional information, including transfer student requirements and Discovery Theme details.

## Biochemistry and Molecular Biology

The major in biochemistry and molecular biology consists of 53-58 credit hours in biology, chemistry, mathematics and physics courses as listed below. Additional cognate courses in mathematics and physics are required.

Code	Title	Hours
Required Biological Sciences courses (18 cr. hrs.):		
BIOL 1001	General Biology 1	3
BIOL 1002	General Biology 2	3
BIOL 3201	Genetics	3
BIOL 3301	Cell Biology	3
BIOL 4102	Experimental Molecular Biology	3
BIOL 4532	Biochemistry 2: Bioenergetics and Metabolism	3
Required Chemistry Courses (23-26 cr. hrs.)		
CHEM 1001 or CHEM 1013	General Chemistry 1 General Chemistry 1 for Majors	4
CHEM 1002 or CHEM 1014	General Chemistry 2 General Chemistry 2 for Majors	4
CHEM 3201	Foundations of Analytical Chemistry	4
CHEM 4530	Biochemistry 1: Macromolecular Structure and Function	3
Organic Chemistry Sequence - Choose one of the following:		8
CHEM 2111 & CHEM 2112	Organic Chemistry 1 and Organic Chemistry 2	
CHEM 2113 & CHEM 2114	Organic Chemistry for Majors 1 and Organic Chemistry for Majors 2	
Physical Chemistry - Choose one of the following:		3-6
CHEM 4431	Physical Chemistry: Fundamentals with Applications in Biological Sciences	
CHEM 4433 & CHEM 4434	Physical Chemistry 1 and Physical Chemistry 2	
Additional Laboratory Course Requirement - Choose option one or option two:		3
Option 1:		

BIOL 4956                      Laboratory Research Project in Biological Sciences  
 or CHEM 4956                Undergraduate Research in Chemistry

## Option 2 (choose one of the following):

BIOL 4202                      Experimental Genetics  
 BIOL 4302                      Experimental Cell Biology  
 BIOL 4402                      Experimental Ecology and Field Biology  
 BIOL 4403                      Tropical Ecology in Panama  
 BIOL 4502                      Experimental Neurobiology  
 BIOL 4602                      Experimental Vertebrate Anatomy and Development  
 BIOL 4702                      Experimental Physiology  
 BIOL 4802                      Experimental Microbiology

## Elective Courses - Choose any two of the following not previously taken:

6-8

## Biology Courses:

BIOL 3400                      Ecology  
 BIOL 3404                      Evolutionary Biology  
 BIOL 4201                      Genomics and Bioinformatics  
 BIOL 4202                      Experimental Genetics  
 BIOL 4302                      Experimental Cell Biology  
 BIOL 4401                      Advanced Ecology  
 BIOL 4402                      Experimental Ecology and Field Biology  
 BIOL 4403                      Tropical Ecology in Panama  
 BIOL 4404                      Molecular Evolution  
 BIOL 4406                      Plant Biology  
 BIOL 4410                      Conservation Biology  
 BIOL 4501                      Cellular Neurobiology  
 BIOL 4502                      Experimental Neurobiology  
 BIOL 4601                      Animal Development  
 BIOL 4602                      Experimental Vertebrate Anatomy and Development  
 BIOL 4701                      Human Physiology  
 BIOL 4702                      Experimental Physiology  
 BIOL 4703                      Exercise Physiology  
 BIOL 4801                      Microbiology  
 BIOL 4802                      Experimental Microbiology  
 BIOL 4806                      Immunobiology  
 BIOL 4956                      Laboratory Research Project in Biological Sciences  
 BIOL 4987                      Applying the Internship Experience  
 BIOL 4995                      Independent Study in Biology  
 BISC 4995                      Independent Study in Biomedical Sciences

## Chemistry Courses:

CHEM 3210                      Advanced Methods and Instrumentation for Chemical Analysis  
 CHEM 4130                      Characterization of Organic Compounds  
 CHEM 4330                      Inorganic Chemistry  
 CHEM 4430                      Introduction to Quantum Chemistry  
 CHEM 4956                      Undergraduate Research in Chemistry

## Mathematics Courses:

MATH 2450                      Multivariable Calculus  
 MATH 2451                      Differential Equations  
 MATH 4740                      Biostatistical Methods and Models  
     or MATH 4720                Statistical Methods  
     or PSYC 2001                Psychological Measurements and Statistics: Lecture Only

## Physics Courses:

PHYS 4046                      The Physical Basis of Biological Structure and Function

PHYS 4065	Experimental Methods in Molecular Biophysics
-----------	--

**Total Credit Hours:****53-58****Notes:**

- Students who take CHEM 4433 Physical Chemistry 1 and CHEM 4434 Physical Chemistry 2 are required to take only one additional elective in biological sciences, chemistry or mathematics.
- A second BIOL 4956 Laboratory Research Project in Biological Sciences or CHEM 4956 Undergraduate Research in Chemistry course may be taken as an elective if previously taken as a laboratory course.
- Honors courses are available from both departments by contract with the instructors. Courses available for honors credit are identified.

Cognate Course Requirements:

Code	Title	Hours
Mathematics Courses:		
MATH 1450	Calculus 1	4
MATH 1455	Calculus 2	4
Physics Sequence - Choose one of the following:		
PHYS 1001 & PHYS 1002	General Physics 1 and General Physics 2	8
PHYS 1003 & PHYS 1004	General Physics with Introductory Calculus 1 and General Physics with Introductory Calculus 2	

**Total Credit Hours:****16**

## Biochemistry and Molecular Biology B.S./M.B.A. Accelerated Degree Programs

The Departments of Biological Sciences and Chemistry together with the Graduate School of Management offer an accelerated degree programs which allow students to earn their B.S. in Biochemistry & Molecular Biology and a master of business administration (M.B.A.), all within a five-year time period.

During the first four years of the program, students complete both their coursework requirements for their B.S. degree and the necessary prerequisite courses for the M.B.A. degree in the College of Business Administration. In addition, undergraduate students begin their M.B.A. graduate work in their senior year by taking two graduate level courses.

To be considered for admission to the B.S./M.B.A. five-year program, applicants must formally apply to the Graduate School of Management during their junior year at Marquette University. For more detailed information and details of a typical five-year coursework plan, please refer to the Graduate School of Management Bulletin and contact the Departments of Biological Sciences and/or Chemistry or the Graduate School of Management.

## TYPICAL PROGRAM FOR Biochemistry and Molecular Biology MAJORS

**Freshman**

First Term	Hours	Second Term	Hours
ARSC 1953		1 BIOL 1002	3
BIOL 1001		3 CHEM 1002 or 1014	4
CHEM 1001 or 1013		4 PHIL 1001 or ENGL 1001 (MCC)	3
MATH 1450		4 MATH 1455	4
ENGL 1001 or PHIL 1001 (MCC)		3 BIOL 1003 <sup>1</sup>	1
BIOL 1004 <sup>1</sup>		1	
	<b>16</b>		<b>15</b>

**Sophomore**

First Term	Hours	Second Term	Hours
CHEM 2111 or 2113		4 CHEM 2112 or 2114	4
PHYS 1001 or 1003		4 PHYS 1002 or 1004	4
BIOL 3301		3 BIOL 3201	3

CORE 1929 (MCC)	3	DSCV (MCC) <sup>3,4</sup>	3
THEO 1001 or ESSV1 (MCC) <sup>2</sup>	3	THEO 1001 or ESSV1 (MCC) <sup>2</sup>	3
	<b>17</b>		<b>17</b>
<b>Junior</b>			
<b>First Term</b>	<b>Hours</b>	<b>Second Term</b>	<b>Hours</b>
CHEM 3201 <sup>5</sup>		4 Biology lab (upper division) <sup>6</sup>	3
CHEM 4530	3	BIOL 4532	3
DSCV (MCC) <sup>3,4</sup>	3	CHEM 4431	3
Electives	6	DSCV (MCC) <sup>3,4</sup>	3
		Elective	3
	<b>16</b>		<b>15</b>
<b>Senior</b>			
<b>First Term</b>	<b>Hours</b>	<b>Second Term</b>	<b>Hours</b>
Biochemistry/Molecular Biology elective		3-4 BIOL 4102	3
DSCV (MCC) <sup>3,4</sup>	3	Biochemistry/Molecular Biology elective	3
CORE 4929 or ELECTIVE	3	CORE 4929 or ELECTIVE	3
Electives	3	Electives	6
	<b>12-13</b>		<b>15</b>

**Total Credit Hours: 123-124**

- <sup>1</sup> BIOL 1004 Biology and the Health Professions is recommended for students considering a career in the health sciences, while BIOL 1003 Biology Matters is recommended for students exploring other career opportunities in Biological Sciences.
- <sup>2</sup> For students intending to apply to medical school: MATH 4740 Biostatistical Methods and Models is recommended as a math elective, PSYC 1001 General Psychology is recommended as a general elective, and SOCI 1001 Principles of Sociology is recommended as the ESSV1 course.
- <sup>3</sup> The four courses in the Discovery Tier (DSCV) of the MCC must be completed in the same theme and include the following content areas: Humanities (HUM), Social Science (SSC), Natural Science and Mathematics (NSM) and one elective (ELE), which is an additional course from any of the three content areas. A maximum of two courses in the Discovery Tier can apply towards a primary major.
- <sup>4</sup> Students must also complete the Writing Intensive (WRIT) and Engaging Social System and Values 2 (ESSV2) requirements of the MCC. These requirements can be fulfilled through designated courses in the Discovery Tier or other degree requirements.
- <sup>5</sup> Many students, including those continuing on to graduate school, should consider the option of two terms of physical chemistry CHEM 4433 Physical Chemistry 1 and CHEM 4434 Physical Chemistry 2 which require an additional term of calculus MATH 2450 Multivariable Calculus. Students who take CHEM 4433 Physical Chemistry 1, CHEM 4434 Physical Chemistry 2, and MATH 2450 Multivariable Calculus are required to take only one additional elective in biological sciences, chemistry or mathematics.
- <sup>6</sup> BIOL 4956 Laboratory Research Project in Biological Sciences or CHEM 4956 Undergraduate Research in Chemistry may be substituted.

**Program Director: Deanna Arble, Ph.D.**

The Disciplinary Honors Program in Biochemistry and Molecular Biology focuses on experiential learning, in the form of either laboratory research or internship, and on science communication. The program is open to students majoring in Biochemistry and Molecular Biology.

## Curriculum Requirements

### Recommended Prerequisite Course Work

Code	Title	Hours
BIOL 1001H or BIOL 1001	Honors General Biology 1 General Biology 1	3
BIOL 1002H or BIOL 1002	Honors General Biology 2 General Biology 2	3
BIOL 1101	Foundations in Biological Inquiry	3
BIOL 2953	Entering Research 1	1
BIOL 2954	Entering Research 2	1
CHEM 1001H or CHEM 1013H	Honors General Chemistry 1 Honors General Chemistry 1 for Majors	4
CHEM 1002H or CHEM 1014H	Honors General Chemistry 2 Honors General Chemistry 2 for Majors	4

**Total Credit Hours:** 19

### Requirements for Biochemistry and Molecular Biology Disciplinary Honors

Students must complete a minimum of six credits with at least one seminar and two research experiences from the courses listed below. Students may only do one honors internship for the disciplinary honors major, but the research requirement could be fulfilled by two terms of laboratory research.

Code	Title	Hours
Select at least one of the following:		1
CHEM 4931H	Honors Topics in Chemistry	
BIOL 4931H	Honors Topics in Biology	
Student must complete a total of at least 5 additional credits from the following list of courses:		5
BIOL 4931H	Honors Topics in Biology	
CHEM 4931H	Honors Topics in Chemistry	
BIOL 4956H	Honors Laboratory Research Project in Biological Sciences (may be repeated for a maximum of 6 credits)	
CHEM 4956H	Honors Undergraduate Research in Chemistry (may be repeated for a maximum of 6 credits)	
BIOL 4987H	Honors Applying the Internship Experience	

### Additional Requirements

- Public presentation (talk/poster) describing results/outcomes of research/internship. Can be fulfilled by giving a public presentation based on work done in BIOL 4956H Honors Laboratory Research Project in Biological Sciences, CHEM 4956H Honors Undergraduate Research in Chemistry or BIOL 4987H Honors Applying the Internship Experience. The program director will inform students of presentation opportunities and determine which presentations fulfill the requirements of the program.
- A minimum 3.200 cumulative GPA in the major at graduation is required to graduate with disciplinary honors.

### Eligibility

1. Overall cumulative GPA of 3.200 or higher.
2. Identified faculty mentor/intern sponsor for disciplinary honors work.
3. Written proposal: A written proposal is required for students applying for the Biochemistry & Molecular Biology disciplinary honors program. The proposal should identify the honors courses for which the student is planning to enroll and explain how these courses correspond to and will benefit them in their anticipated career. The program director evaluates applications and makes decisions regarding admission to the program. Information is available on the department website to facilitate the application process in the spring of the sophomore year or fall of the junior year.

### Application

Students are encouraged to apply in the spring term of the sophomore year, but applications are also accepted in the fall term of the junior year. Applications ([https://marquette.az1.qualtrics.com/jfe/form/SV\\_cU4uEHgDr9jmlw6/](https://marquette.az1.qualtrics.com/jfe/form/SV_cU4uEHgDr9jmlw6/)) can be made directly to the Biological Sciences department. Questions can be directed to the program director.
