

Physics, BS

In physics, students study the laws of nature, the structure of matter and the behavior of physical processes, and are challenged to think and conceptualize beyond direct human experience. In short, physics expands the potential of students' minds. The flexibility of the physics curriculum lets students tailor their studies to specific interests and career goals.

Physics students achieve a general understanding of leading edge computational, theoretical and experimental approaches to explaining diverse natural phenomena from subatomic particles, to exotic stars and galaxies, and progress into areas as diverse as medicine, law, engineering and finance, as well as mainstream areas of physics such as particle physics, astrophysics, solid state, atomic and molecular physics.

Degree Requirements

The College of Arts and Sciences curricular requirements are organized around these essential components:

- The development of fundamental skills of critical inquiry, analysis and expression.
- The development of appreciation for the spiritual and creative dimensions of human life and culture.
- The development of a responsible commitment to the broader social and political communities in which we live.

The college challenges students to embrace, seek to understand and engage actively in the complexities of the world in which we live. Courses in the Marquette Core Curriculum (MCC), drawn from the different disciplines within the humanities, natural sciences and social sciences, provide multiple perspectives and methods of inquiry. The MCC serves as the foundation for the intellectual growth of our students as they pursue their majors and professional disciplines, and as they develop into men and women who dedicate their lives to the service of others.

Courses in the majors provide in depth knowledge and skills concerning a particular area of study. The college offers a wide variety of discipline-based majors in the Humanities (English, History, Philosophy, Theology and Languages, Literatures and Cultures); in the Social Sciences (Anthropology, Criminology and Law, Economics, Political Science, Psychology, Sociology and Social Welfare and Justice); and in the Sciences (Biology, Chemistry, Physics, Math, Statistics and Computer Science). In addition, a wide range of majors and minors are offered in interdisciplinary areas of study including Africana Studies, Bioinformatics, Cognitive Science and Gender and Sexualities Studies, among others.

The combination of courses required by the Marquette Core Curriculum and individual majors in the College of Arts and Sciences ensures that students are educated both broadly and deeply, in keeping with long-standing Jesuit educational ideals and principles.

First-Year Seminar

Students are required to complete ARSC 1953 Exploring Arts and Sciences during the fall term of their first year at Marquette. Students in the Honors Program are exempt from this requirement. Advanced standing transfer students who have completed a similar course at another institution may ask the college to waive the requirement.

Bulletin Year and Degree Audit

Undergraduate students must meet the graduation requirements that are outlined in the Undergraduate Bulletin in effect the year in which they enter Marquette. Substitutions or waivers for specific courses that are required for degree completion may occur, as determined by the Klingler College of Arts and Sciences.

Students who interrupt their enrollment from the university follow the degree requirements from the bulletin in effect during the academic year of their readmission. In rare cases, the college may determine that readmitted students fall under a different set of degree requirements than the academic year in which they are readmitted. Policies and regulations in effect at the time of return apply to all students, regardless of the term of initial enrollment.

It is the responsibility of students to know and fulfill the requirements for graduation specified for the selected plan. Students are encouraged to use the Academic Advisement degree audit system, which is accessed via their Student Center and tracks courses that have been completed, as well as the Marquette Core Curriculum, college curricular requirements and major/minor requirements toward degree completion.

Grade Point

- Earn a minimum grade point average of 2.000 for graduation.
- Achieve a 2.000 grade point average in all courses in the major or minor.

Credit Hours

Complete a minimum of 32 credit hours in upper-division Marquette courses (lower-division courses are numbered 1000 to 2999; upper-division courses are numbered 3000 and above).

Other Requirements for Graduation

- Complete the formal online application for graduation available in the CheckMarq Student Center (<https://checkmarq.mu.edu/>), by the specific term deadlines for application, as published in the Academic Calendar (<https://bulletin.marquette.edu/undergrad/academiccalendar/>).
- The college adheres to the University Commencement Policy (<https://bulletin.marquette.edu/policies/commencement/>).

Although most students can fulfill the Marquette Core Curriculum requirements, the college curricular requirements, their major requirements and elective courses without exceeding 120 credits, certain combinations of major and minor fields may require more than the minimum. Students are urged, therefore, to consult an adviser before selecting a major and any additional majors or minors.

It is the responsibility of students to know and to fulfill all university, Klingler College of Arts and Sciences and major department requirements (See the corresponding sections of this bulletin for additional information regarding the Marquette Core Curriculum, university graduation and residency requirements, college curricular requirements and department major and minor requirements).

University Graduation Requirement

Undergraduate Graduation Policy

Students are required to graduate at the end of the term in which all degree requirements are completed. Degree requirements are those requirements, including university, college and all other requirements necessary to earn a minimum of one undergraduate degree and any declared degrees/majors/minors/concentrations. That is, additional degrees/majors/minors/concentrations may be earned; however, they must be completed in the same term as the first degree/primary major is completed. Except in the case of readmission, undergraduate students must meet the graduation requirements which are stated in the Undergraduate Bulletin issued for the year in which they entered Marquette. Substitutions or waivers for specific courses required for degree completion may occur, as determined by the college and/or the Marquette Core Curriculum committee.

Students who have interrupted their enrollment from the university, are normally obliged to follow the degree/major/minor/concentration requirements in effect at the time of readmission. Policies that are in effect at the time of the return, apply to all students, regardless of the term of initial enrollment. Students are responsible for keeping themselves informed of the requirements which apply in their particular cases. Students have faculty advisers available who assist in planning and implementing their plan of studies; however, it is ultimately each student's responsibility to know and fulfill the requirements for graduation specified for the selected plan. This should be done not only by utilization of specific advisers, but also with Academic Advisement, the university's online degree audit tool on CheckMarq provided to all undergraduates. With Academic Advisement, students track their degree progress until graduation. It is the responsibility of students to immediately bring any discrepancies found in Academic Advisement to the attention of their college.

A candidate for a baccalaureate degree must meet the following graduation requirements:

1. In all undergraduate colleges and programs, a minimum of 120 credits earned and a cumulative grade point average of 2.000 is required for a Marquette undergraduate degree.
2. Credits required to be completed in residence at Marquette:
 - a. A minimum of 45 total credits must be completed at Marquette. Up to 15 of the 45 credits may be completed through an approved study abroad program.
 - b. A minimum of 24 upper-division credits must be completed at Marquette. This may include upper-division credits from an approved study abroad program.
 - c. At least 30 of the final 36 credits needed to complete a Marquette undergraduate degree must be completed at Marquette, unless those credits are earned in an approved study abroad program, or are earned as part of a written/contractual agreement with another institution, in which Marquette students participate during the final year of their degree program.
 - d. A minimum of one-half of credits in the major, minor, and concentration not attached to a major must be completed at Marquette.
3. Students must attend all courses, lectures, or any other exercises that are required, even though, in some cases such activities receive no recognition in terms of credit hours.
4. Students' records must be cleared of all grades that are not permanent, i.e., grades of I, IC, IE and NG.
5. Students must file the online application for a degree by the deadline published in the Academic Calendar (<https://www.marquette.edu/central/registrar/calendars-exams-schedules.php>); however, because students are required to graduate at the end of the term in which all university, degree requirements are complete, the university reserves the right to graduate a student without a graduation application on file. If the university exercises this option, there is no guarantee students will be able to participate in Commencement.
6. Commencement is held in May, after the spring term. Participation in Commencement does not mean students are graduated. See the Commencement Policy (<https://bulletin.marquette.edu/policies/commencement/>) in this section for further details.
7. Exceptions to this Graduation Requirements policy must be approved by the Office of the Provost, except:
 - the course and bulletin year exceptions listed in the 'Graduation Requirements' section above (as approved by the college)
 - number 3 above (as approved by the college)

For additional college requirements, consult the Degree Requirements listed for each undergraduate program in this bulletin.

Graduation Latin Honors

The grade point average is used to compute graduation Latin honors. The computation is made by dividing the total number of grade points earned at Marquette University by the total number of grade point hours earned. The official Marquette GPA of all students is calculated by the student information system and this GPA is not rounded up or down for any reason. To graduate with Latin honors, candidates must be pursuing their first bachelor's degree, earned at least 60 grade point hours and 60 degree hours at Marquette University, normally as a junior and senior. First bachelor's degree is defined as the first bachelor's degree earned from any institution. When students earn a concurrent additional bachelor's degree (i.e., finish in the same term as the first bachelor's degree), the additional degree is also eligible for Graduation Latin Honors, if the first bachelor's degree qualifies.

Graduates whose grade point average is 3.500, graduate with cum laude (Latin for 'with honor'); graduates whose grade point average is 3.700, graduate with magna cum laude (Latin for 'with great honor'); and graduates whose grade point average is 3.900, graduate with summa cum laude (Latin for 'with highest honor'). Graduation Latin honors are recorded on diplomas, noted in the published lists of graduates at Commencement and recorded on students' transcript.

Graduation Record

The academic record of students is frozen once the degree is posted and may not be altered thereafter, unless required to do so by law and/or a documented university error is discovered after the degree is posted. This includes, but is not limited to: all relevant grade point averages, grades, additional information relating to the degree(s), major(s), minor(s), concentration(s), Latin Honors and academic censure.

Marquette Core Curriculum (MCC) - 30 Credits

Foundation Tier - 15 Credits

Code	Title	Hours

SPAN 3310	Peoples and Cultures of Latin America	3
THAR 2020	Theatre Appreciation	3

¹ Honors (H) designation of same course number also fulfills MCC requirement.

Discovery Tier - 12 Credits

Students must complete **four** Discovery Tier courses, all from the **same** Discovery Theme. These four courses must include one course from each of the three content areas (Humanities, Natural Science and Mathematics, and Social Science), and one elective (an additional course from any of the three content areas). A maximum of two courses in the Discovery Tier can be applied toward a primary major. Additional dual counting may be allowed towards college-level requirements.

Students declare their Discovery Theme using the Discovery Tier Declaration Form (<https://www.marquette.edu/central/registrar/how-do-i-declare-change-mcc-discovery-tier-theme.php>) in CheckMarq.

For students who participate in a full-time (12 credits or more) Marquette-approved study abroad program, one study abroad course (minimum 2.5 transfer credits awarded) may fulfill the elective requirement of the Discovery Tier. Any additional MCC requirements may be fulfilled only when the approved transfer equivalent is an exact match to a specific MCC course.

Discovery Themes

The five discovery theme options are listed below. See additional information and course listings (<https://bulletin.marquette.edu/resources-opportunities/marquette-core-curriculum/#discoverythemestext>).

- Basic Needs and Justice
- Cognition, Memory and Intelligence
- Crossing Boundaries: The Movement of People, Goods and Ideas
- Expanding Our Horizons
- Individuals and Communities

Culminating Course - 3 Credits

Grade Minimums & Additional Information

- A grade of C or better is required in Honors MCC courses. A passing grade is required in non-Honors MCC courses.
- Review the Marquette Core Curriculum (<https://bulletin.marquette.edu/resources-opportunities/marquette-core-curriculum/>) section of the bulletin for additional information, including transfer student requirements and Discovery Theme details.

Major in Physics

The major consists of 36 cr. hrs. Students complete the common physics core: a required physics core sequence of two courses (8 cr. hrs.), five required physics core courses (15 cr. hrs.), six required physics seminar courses (7 cr. hrs.); and 6 cr. hrs. of upper division physics elective courses. In addition, students must complete four required cognate mathematics courses (16 cr. hrs.) and cognate courses in chemistry or computer science courses (8 cr. hrs.) for a total of 24 cr. hrs. of background course work.

Code	Title	Hours
Common Physics Core:		
Required Physics Core Sequence - Choose one of the following:		8

Electives - Upper-division Physics courses

6

Total Credit Hours:**36****Note:**

- PHYS 1013 Classical and Modern Physics with Calculus 1 and PHYS 1014 Classical and Modern Physics with Calculus 2 are studio style courses recommended for students considering a physics major.

Code	Title	Hours
Required Background Mathematics and Chemistry or Computer Science Courses:		
Mathematics Courses:		
MATH 1450	Calculus 1	4
MATH 1455 or MATH 1451	Calculus 2 Integral Calculus	4
MATH 2440 or MATH 2450	Calculus 3 Multivariable Calculus	4
MATH 2451	Differential Equations	4
Students with AP credit for MATH 1451 should take MATH 2450		
Chemistry or Computer Science Courses - choose two of the following:		
CHEM 1001 or CHEM 1013	General Chemistry 1 General Chemistry 1 for Majors	8
CHEM 1002 or CHEM 1014	General Chemistry 2 General Chemistry 2 for Majors	
COSC 1010	Introduction to Software Development	
COSC 1020	Object-Oriented Software Design	
Total Credit Hours:		24

For Students Considering Graduate Study in Physics

To meet admission expectations for graduate study in Physics, students should complete the required Physics core sequence (8 cr. hrs.), Physics core courses (15 cr. hrs.), and Physics seminar courses (7 cr. hrs.), as well as the required background course work in Mathematics (16 credit hours) and Chemistry and/or Computer Science (8 cr. hrs.) courses approved as elective options for the Physics major. Students majoring in Physics major complete these courses within their major requirements.

Code	Title	Hours
Recommended Upper Division Electives for Graduate Study in Physics:		
Physics Courses:		
PHYS 4012	Quantum Mechanics	3
PHYS 4034	Modern Optics	3
PHYS 4057	Contemporary Physics Lab 2	2
PHYS 4062	Introduction to Thermodynamics	3
Mathematics Course:		
MATH 4210	Complex Variables	3
Additional Course: 3 credit hours in upper-division MATH		3
Total Credit Hours:		17

Physics B.S./M.B.A. Accelerated Degree Program

The Department of Physics together with the Graduate School of Management offers an accelerated degree program which allows students to earn both their B.S. in physics and master of business administration (M.B.A.) all within in a five-year time period.

During the first four years of the program, students complete both their course work requirements for their physics B.S. degree and the necessary prerequisite courses for the M.B.A. degree in the College of Business Administration. In addition, undergraduate students begin their M.B.A. graduate work in their senior year by taking two graduate level courses.

To be considered for admission to the B.S./M.B.A. five-year program, applicants must formally apply to the Graduate School of Management during their junior year at Marquette University. For more detailed information and details of a typical five-year course work plan, refer to the Graduate School of Management Bulletin and contact the Department of Physics or the Graduate School of Management.

Typical Program for Physics Majors

Freshman

First Term	Hours	Second Term	Hours
ARSC 1953		1 PHYS 1014 (recommended)	4
PHYS 1013 (recommended)	4	PHYS 1954	1
PHYS 1953	1	MATH 1455	4
MATH 1450	4	ENGL 1001 or ESSV1 (MCC)	3
ENGL 1001 or ESSV1 (MCC)	3	PHIL 1001 or THEO 1001 (MCC)	3
PHIL 1001 or THEO 1001 (MCC)	3		
	16		15

Sophomore

First Term	Hours	Second Term	Hours
PHYS 2400		3 PHYS 2500	4
PHYS 2953	1	PHYS 2954	1
MATH 2440	4	MATH 2451	4
CHEM/COSC Cognate course	4	CHEM/COSC Cognate course	4
CORE 1929 (MCC)	3	DCSV (MCC) ^{1,2}	3
	15		16

Junior

First Term	Hours	Second Term	Hours
PHYS 3100		3 PHYS 4031	3
PHYS 4012	3	PHYS 3056	2
DSCV (MCC) ^{1,2}	3	DSCV (MCC) ^{1,2}	3
Electives	6	Elective	6
	15		14

Senior

First Term	Hours	Second Term	Hours
PHYS 4057		2 PHYS 4034	3
PHYS 4954	1	PHYS 4997	2
Physics electives (upper division)	6	Physics electives (upper division)	6
CORE 4929 (MCC)	3	Electives	4
DSCV (MCC) ^{1,2}	3		
	15		15

Total Credit Hours: 121

¹ The four courses in the Discovery Tier (DSCV) of the MCC must be completed in the same theme and include the following content areas: Humanities (HUM), Social Science (SSC), Natural Science and Mathematics (NSM) and one elective (ELE), which is an additional course from any of the three content areas. A maximum of two courses in the Discovery Tier can apply towards a primary major.

² Students must also complete the Writing Intensive (WRIT) and Engaging Social System and Values 2 (ESSV2) requirements of the MCC. These requirements can be fulfilled through designated courses in the Discovery Tier or other degree requirements.

Note: Electives must include at least 8 cr. hrs. of upper division PHYS courses numbered in the 3000 and 4000 ranges. Individual courses may range from 1 cr. hr. to 3 cr. hrs. in value.

Disciplinary Honors in Physics

Program Director: Dr. Andrew Kunz

Curriculum Requirements

Recommended Prerequisites

Code	Title	Hours
PHYS 1013H or PHYS 1003H	Honors Classical and Modern Physics with Calculus 1 Honors General Physics with Introductory Calculus 1	4
PHYS 1014H or PHYS 1004H	Honors Classical and Modern Physics with Calculus 2 Honors General Physics with Introductory Calculus 2	4
Total Credit Hours:		8

Requirements for Physics Disciplinary Honors

Code	Title	Hours
PHYS 4953H	Honors Seminar in Physics	1
PHYS 4956H	Honors Undergraduate Research	6

- Students are expected to enroll in PHYS 4953H Honors Seminar in Physics during the fall term of the junior year.
- The 6 credits of PHYS 4956H Honors Undergraduate Research must be taken over at least two terms.

Eligibility

1. Overall cumulative GPA of 3.200 or higher at time of application.
2. Written statement – In a written statement (1-2 pages), the student should summarize his/her reasons for applying to the honors program. In addition, the statement should address the student's plans with respect to undergraduate research and career objectives.

Application

Students are encouraged to apply to the disciplinary honors program in physics during the spring term of their sophomore year. Applications may also be accepted in the fall term of the junior year in rare cases. Applications should be submitted directly to the physics department office. Sample statements, application deadlines and forms are available on the Department of Physics Web page. Additional questions can be directed to the disciplinary honors director, Dr. Andrew Kunz. The program director evaluates applications and makes decisions regarding admission to the program.

Academic Standards

If a student drops below a 3.200 in any given term during the junior year or any subsequent year, the student receives a letter of warning from the director. If a student drops below a 3.200 cumulative GPA, they are placed on Honors Program academic probation; if they do not achieve a 3.200 cumulative by the end of the following term, they are removed from the program. Students must earn a grade of C or better in a course for it to count toward the disciplinary honors requirements.
