

Degrees Offered

Marquette University confers the degrees of Bachelor of Arts (B.A.) and/or Bachelor of Science (B.S.) on those students who have satisfactorily completed one of the regularly prescribed programs in the Klingler College of Arts and Sciences. Students who successfully complete the Core Honors or Comprehensive Honors curriculum may earn a degree of honors bachelor of art or science or comprehensive honors bachelor of arts or science, respectively.

A student holding a bachelor's degree in one discipline may be admitted for work toward a bachelor's degree in another discipline, with approval from the college office (Bachelor of Arts to Bachelor of Science or vice versa). This option is useful for a student who wishes to change his or her field of concentration for graduate or professional study. Students seeking to complete a second baccalaureate degree should see the university section of this bulletin for degree requirements and procedures.
