

Simultaneous Enrollment in Two Academic Programs

Credit for courses pursued at another educational institution while simultaneously enrolled at Marquette (concurrent registration) is not allowed unless specifically authorized by the dean.

Expanding on this policy declaration the following justifications and qualifications are added:

The Opus College of Engineering believes it is academically essential to know and monitor the aggregate academic load of all degree students and to guard against situations that adversely affect the overall student performance.

The college permits simultaneous registration providing:

1. an equivalent course is not available at Marquette, and
2. students have prior written permission regarding course selection from their adviser and have successfully petitioned the Associate Dean for Academic Affairs prior to the start of the classes.

Students' action outside of these policy guidelines may jeopardize transfer credit allowance.
