Communication (COMM)

Associate Dean for Graduate Studies and Research: Sumana Chattopadhyay, Ph.D.
Graduate Communication website (https://www.marquette.edu/grad/programs-communication.php)

Degree Offered
Master of Arts, Plan B only

Program Description
The J. William and Mary Diederich College of Communication graduate program in communication prepares students for intellectual, artistic, professional and ethical leadership in a complex technological and multicultural world. It uses a core of common knowledge, values and communication skills to improve understanding of communication as a cultural and social process and to develop the skills necessary for success in constantly changing information environments. Students can specialize in one of two areas: communication and media studies, or digital communication strategies. The master’s program takes an integrative approach that emphasizes how contemporary communication practices, technologies and professions intersect and encourages students to learn from one another’s specialized interests.

The communication and media studies specialization focuses upon deeper skills of analysis and research in communication and prepares students for advanced roles in their careers or for doctoral studies. The digital communication strategies specialization focuses upon the planning and use of communication technologies and prepares students to work as leaders in their professional fields.

Students are encouraged to tailor the degree to their individual interests by choosing from the varied proseminars or topics courses offered in communication, or from courses offered in other Marquette graduate programs, including business, marketing, English, psychology and political science.

Both specializations require a problem-based, interdisciplinary, organizationally grounded fieldwork experience. Milwaukee offers a rich urban laboratory for communication study, with a wide array of advertising and public relations agencies, major corporations, consulting firms, broadcast stations, general interest and specialized newspapers and magazines, and online publications. The fieldwork credits allow students to gain experience and develop a professional portfolio, and to work collaboratively and learn from one another’s experiences as writers, designers, multi-media specialists, consultants, trainers and marketers.

Upon the completion of the master of arts degree program in communication, graduates will be able to:

1. Apply research-based, theory-informed knowledge to the identification and solution of real-life issues in the field.
2. Apply ethical decision-making skills in a variety of communication situations.
3. Integrate knowledge from the discipline of communication with the chosen specialization area.

Prerequisites for Admission
For all programs in communication, the applicant must have graduated with, or be about to graduate with, a bachelor's degree from an accredited institution and must have an undergraduate grade point average equivalent to at least a 3.000 on a 4.000 scale. Master of arts applicants without sufficient academic or professional background will be required to take some undergraduate courses with no graduate credit to satisfy deficiencies.

Application Requirements
Applicants must submit, directly to the Graduate School:

1. A completed online (http://marquette.edu/grad/future_apply.shtml/) application form and fee.
2. Copies of all college/university transcripts except Marquette.¹
3. Three letters of recommendation, specifically in letter format.
4. A brief statement of academic and professional goals.
5. (For international applicants only) a TOEFL score or other acceptable proof of English proficiency. A minimum score of 600 on the paper-based version, 250 on the computer-based version, or 100 on the Internet-based version is required.
6. GRE scores (General Test only) are optional but highly recommended for international applicants.

¹ Upon admission, final official transcripts from all previously attended colleges/universities, with certified English translations if original language is not English, must be submitted to the Graduate School within the first five weeks of the term of admission or a hold preventing registration for future terms will be placed on the student’s record.

Master of Arts in Corporate Communication
In addition to our master of arts in communication, the J. William and Mary Diederich College of Communication offers a master of arts in corporate communication in conjunction with the Graduate School of Management. This 30 credit-hour program combines advanced course work in
communication and business to prepare students for an executive-level communication role. For more information on the corporate communication master of arts and its related five-year accelerated degree program, see the Graduate School of Management Bulletin (https://bulletin.marquette.edu/schoolofmanagement/programs/corpcomm/).

Dual Programs of Study

M.A. in Communication and M.A. in Political Science
M.A. in Communication and M.A. in International Affairs

The J. William and Mary Diederich College of Communication, in conjunction with the Department of Political Science, offers a program of dual study leading to a master of arts degree in communication and a master of arts degree in political science or international affairs. Dual degree students are able to complete both degree programs in less time than if both degrees were pursued separately.

Students seeking admission into the dual degree program must submit to the Graduate School separate applications for admission to both programs, including two sets of required documentation, and must meet the admission requirements of each program. Acceptance into one program does not guarantee acceptance into the other. If a student is accepted into one program and not the other, the student can still choose to accept the admission offer from the first program but would not be considered a dual degree student. Because students are officially admitted into only one Marquette University graduate program at a time, applicants must indicate which program they intend to pursue and complete first, although once accepted for admission to both programs, students may take courses from both departments. Upon completion of the first program, the student will be officially admitted to the second program for completion of the remainder of the dual program.

Dual degree students count 9 credits of course work in each program toward the required course work credits of the other program. Thus, 9 of the 30 credits required for the thesis program, or 9 of the 36 credits required for the non-thesis program for the master of arts degree in communication will come from POSC courses, and 9 of the 30 credits required for the master of arts degree in political science or international affairs will come from COMM courses.

Communication Master of Arts

Specializations: Communication and Media Studies, Digital Communication Strategies

Students are required to choose a specialization and must complete 30 credit hours of course work. Only 3 credit hours total may be at the 5000 level. If approved by the director of studies, up to 6 credits hours may be taken in COMM 6995 Independent Study in Communication. Students must earn a grade point average of at least 3.000 with no grades below a C.

Specialization Details

Communication and Media Studies

This specialization provides students with the theoretical and methodological foundation needed for positions of intellectual leadership in communication professions or for doctoral studies. The proseminar format encourages students to discover their individual interests within a broad spectrum of communication concepts, theories and research methods.
The proseminars are organized under six important contemporary topics; their exact content and title vary depending upon term and instructor. Proseminars may be repeated under different titles.

To complete the communication professions and society specialization, students must choose 3 proseminars from the following list and one additional COMM course at the 6000 level. Each course has variable topics and may be repeated once.

Digital Communication Strategies

This specialization provides students with the conceptual foundation and practical training they need to help organizations plan and execute effective digital communication strategies. Courses help students identify and plan communication strategy, develop digital content, and measure the effectiveness of communication messages within a variety of professional contexts, including advertising, public relations and journalism. Students may tailor their course selections to meet their professional needs and interests.

The digital communication strategies specialization offers topic-based courses that take an applied approach to the strategic use of digital communication technologies. Specific titles vary depending upon term and instructor and topics courses may be repeated under different titles.

To complete the digital communication strategies specialization, students choose 3 courses from the following list and one additional COMM course at the 6000 level. Each course has variable topics and may be repeated once.

Accelerated Bachelor’s-Master’s Program

The accelerated degree program in the College of Communication allows Marquette University students to earn both a bachelor of arts degree with a major in digital media, advertising, communication studies, corporate communication, journalism, media studies, public relations or performing arts and a master of arts degree in communication in five years. Students complete 9-12 hours of approved graduate credit in communication during their senior undergraduate year that count as part of the undergraduate credit hour requirement.

Upon completion of the first term as a master’s candidate, the student must petition the Graduate School to transfer the courses taken as an undergraduate to the master’s degree. All remaining master’s degree requirements may be completed during the subsequent summer, fall and spring terms.

Candidates for admission should have undergraduate junior status, have completed at least 3 upper-division communication courses and should have a major GPA of at least 3.500 and an overall GPA of at least 3.200. Candidates for admission should submit transcripts and three letters of recommendation but need not submit GRE scores. Candidates for admission to this program should notify the associate dean for graduate studies and research of their intentions.

Advertising Public Relations Courses

ADPR 5300. Emerging and Social Media in a Dynamic Marketplace. 3 cr. hrs.
Examines the strategic uses, impact and implications of emerging and social media. Addresses the need to adapt to a digital, networked marketplace where change is the rule rather than the exception. Expands student knowledge of emerging and social media and their application to advertising and public relations challenges. Students use this knowledge to find more strategic and effective ways to communicate with clients, publics, target markets and other stakeholders.

ADPR 5350. Social Media Analytics and Measurement. 3 cr. hrs.
Focuses on social media analytics and measurement. Designed to train students to analyze metrics and maximize the digital success of brands. Using innovative examples and case studies, students focus on effectiveness and optimization while learning to apply analytic strategies and tools to build strong measurement competencies.
ADPR 5500. Account Management in Advertising and Public Relations. 3 cr. hrs.
Explores the fundamentals of account management for both agencies and clients, including for-profit brands and non-profit organizations. Students learn basic business practices as well as client and agency structures and functions. Topics covered range from project estimating and budgeting to time management, relationship building, and sales. Agency reviews and supplier selection and management are also covered. The ethical aspects of account management are stressed.

ADPR 5850. Digital Content Strategy. 3 cr. hrs.
Create content that builds brand awareness, creates brand preference and expands the brand’s reach by leveraging digital content. Provides tangible skills framed by digital strategy to deliver consistent, ongoing valuable content to consumers across multiple platforms.

ADPR 5953. Seminar in Advertising and Public Relations. 1-3 cr. hrs.
Specific subjects of seminars to be announced in the Schedule of Classes. Variable topics.
