

Applied Statistics, MS

Chairperson: Anne Clough, Ph.D.

Program Director: Cheng-Han Yu, Ph.D.

Applied Statistics website (<https://www.marquette.edu/grad/programs-applied-statistics.php>)

Degree Offered

Master of Science, students are admitted under Plan B (non-thesis option) but may request Plan A (thesis option)

Program Description

The master of science program in applied statistics offered by the Department of Mathematical and Statistical Sciences teaches students the science of data. It produces graduates who deal with big data, perform statistical analysis to detect hidden patterns in data, perform risk factor analysis and perform predictive analysis. Statistical data science utilizes principled foundations in mathematics with applications in many fields such as social sciences, engineering, business, biomedical sciences and economics. The master of science in applied statistics is intended for students who have a mathematical background (not necessarily having a degree in mathematics) that want to develop strong data analytic skills to solve complex, real world problems. This program meets the needs for recent graduates who are seeking a master's degree program in applied statistical science, and for mid-career workers with a solid quantitative background who are seeking a graduate program in applied statistics either for career advancement or for a career change. Students may select courses from a large number of approved courses offered by the Department of Mathematical and Statistical Sciences and other units on campus.

Students may pursue the degree on a full-time or part-time basis. Full-time, dedicated students can complete the degree in as little as 12 months. Most courses are offered in the evenings.

General Information

Students interested in applying to the program should consult the program website (<http://marquette.edu/mssc/grad-applied-statistics.shtml/>) for additional information, including a list of currently approved courses for the degree.

Applied Statistics Master of Science

A master's student is admitted to the non-thesis program (Plan B). A formal request to pursue a thesis (Plan A) must be approved by the department's applied statistics program director, the department's Graduate Committee and the Graduate School.

Plan A

All Plan A students must complete a minimum of 30 credit hours (21 credits of program core courses, 3 approved elective credits and 6 credits of MSSC 6999 Master's Thesis), and submit a thesis that must be an original contribution to the student's field of study. A public defense of the thesis is required.

Code	Title	Hours
Required Core courses (21 credits):		
MSSC 5710	Mathematical Statistics	3
MSSC 5780	Regression Analysis	3
MSSC 6010	Computational Probability	3
MSSC 6020	Statistical Simulation	3
MSSC 6040	Applied Linear Algebra	3
MSSC 6240	Design and Analysis of Scientific Experiments	3
MSSC 6250	Statistical Machine Learning	3
Approved Elective course(s)		3
Master's Thesis/Research:		
MSSC 6999	Master's Thesis	6
Total Credit Hours:		30

Plan B

All Plan B students complete a minimum of 30 credits (21 credits of program core courses, 6 approved elective credits and a 3-credit statistical consulting practicum). A written report and an oral presentation are required for the statistical consulting practicum.

Code	Title	Hours
Required Core courses (21 credits):		
MSSC 5710	Mathematical Statistics	3
MSSC 5780	Regression Analysis	3
MSSC 6010	Computational Probability	3
MSSC 6020	Statistical Simulation	3
MSSC 6040	Applied Linear Algebra	3
MSSC 6240	Design and Analysis of Scientific Experiments	3
MSSC 6250	Statistical Machine Learning	3
Approved Elective courses		6
Professional Practice/Statistical Consulting:		3
MSSC 6975	Practicum in Applied Statistics and Data Science	
Total Credit Hours:		30

Plan A and Plan B master's students may select additional approved elective courses from within the department or from outside departments. For a complete list of approved elective courses outside of the department, consult with the applied statistics program director. The following is a list of approved elective courses within the department:

Code	Title	Hours
MSSC 5540	Numerical Analysis	3
MSSC 5630	Mathematical Modeling and Analysis	3
MSSC 5700	Theory of Probability	3
MSSC 5750	Computational Statistics	3
MSSC 5760	Time Series Analysis	3
MSSC 5770	Statistical Machine Vision	3
MSSC 5790	Bayesian Statistics	3
MSSC 6000	Scientific Computing	3
MSSC 6030	Applied Mathematical Analysis	3
MSSC 6210	Theory of Statistics	3
MSSC 6230	Multivariate Statistical Analysis	3

For both Plan A and Plan B:

- Depending on the course topic and approval by program director, MSSC 5931 Topics in Mathematical or Statistical Sciences, MSSC 6931 Topics in Mathematical or Statistical Sciences, MSSC 6995 Independent Study in Mathematical or Statistical Sciences or MSSC 6960 Seminar in Mathematical or Statistical Sciences may also be an approved elective course.
- A maximum of 6 credit hours of courses may be taken from the Medical College of Wisconsin and the University of Wisconsin-Milwaukee, as allowed under the reciprocal arrangement between Marquette and these institutions, as long as they are pre-approved by the applied statistics program director and the Graduate School.
- Master's students who come with little background in statistics may be required to complete MSSC 5720 Statistical Methods or other supportive courses during their first year or during the summer before their first fall term. This is in addition to the required course work for Plan A or Plan B.

Accelerated Bachelor's-Master's Degree Program

The accelerated degree program (ADP) in applied statistics allows students to earn, in five years, a bachelor's degree with an undergraduate major in a variety of fields including, but not limited to: bioinformatics, biomedical engineering, business, chemistry, computational mathematics, computer science, data science, electrical engineering, mathematics, applied mathematical economics, mechanical engineering, physics and psychology, along with the master of science degree in applied statistics. Students complete 12 credit hours of approved graduate courses while an undergraduate student that count as part of the undergraduate credit hour requirement.

Students may obtain both degrees in five years. Students with a GPA of 3.000 or better in their mathematics, science and engineering courses are eligible to apply when they reach junior standing. Up to 12 graduate credits can count toward both degrees. In order to count credits toward both degrees, students must be admitted to the ADP before enrolling in the courses they wish to have applied to both degrees.

The Department of Mathematical and Statistical Sciences offers early admission into the master of science in applied statistics program. Marquette undergraduate students majoring in the above listed majors and others can apply for this program when they reach junior standing.

MSSC 5020 The Teaching of Mathematics (3 credits)

Historical background, problems, curricular materials, and teaching procedures in the various areas of mathematics pertinent to the needs of a secondary school mathematics teacher. In addition, a three-hour time block on one day each week between 8 a.m. and 3 p.m. must be kept free for clinical experience.

Level of Study: Graduate

Last four terms offered: 2022 Fall Term, 2020 Fall Term, 2018 Fall Term, 2017 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205020>)

MSSC 5030 Concepts in Geometry and Calculus from an Advanced Standpoint (3 credits)

Topics chosen primarily from geometry and calculus, taught from an advanced standpoint to enrich and deepen the student's understanding. Emphasis on alternative approaches, generalizations, historical contexts and connections with prior mathematical studies.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2022 Spring Term, 2021 Spring Term, 2019 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205030>)

MSSC 5040 Concepts in High School Algebra and Number Theory from an Advanced Standpoint (3 credits)

Topics closely related to the high school mathematics curriculum, chosen primarily from algebra and number theory, taught from an advanced standpoint to enrich and deepen the student's understanding. Emphasis on alternative approaches, generalizations, historical contexts and connections with prior mathematical studies.

Level of Study: Graduate

Last four terms offered: 2016 Spring Term, 2014 Spring Term, 2012 Spring Term, 2010 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205040>)

MSSC 5120 Abstract Algebra 1 (3 credits)

Sets, mappings, operations on sets, relations and partitions. A postulational approach to algebraic systems including semigroups, groups, rings and fields. Homomorphisms of groups and rings, number systems, polynomial rings.

Level of Study: Graduate

Last four terms offered: 2023 Fall Term, 2022 Fall Term, 2021 Fall Term, 2020 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205120>)

MSSC 5121 Abstract Algebra 2 (3 credits)

A continuation of MSSC 5120 with emphasis on groups, rings, fields and modules.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2021 Spring Term, 2019 Spring Term, 2017 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205121>)

MSSC 5200 Intermediate Analysis 1 (3 credits)

Limits and continuity, differentiability, Riemann integration. Topology of N-dimensional spaces.

Level of Study: Graduate

Last four terms offered: 2023 Fall Term, 2021 Fall Term, 2019 Fall Term, 2017 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205200>)

MSSC 5201 Intermediate Analysis 2 (3 credits)

Transformations of N-spaces, line and surface integrals, sequences and series, uniform convergence.

Level of Study: Graduate

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205201>)

MSSC 5210 Complex Variables (3 credits)

Complex numbers, analytic functions, differentiation, series expansion, line integrals, singularities and residues.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2022 Spring Term, 2020 Spring Term, 2016 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205210>)

MSSC 5310 History of Mathematical Ideas (3 credits)

Topics selected from the following: development of the number system (need for irrational and complex numbers); development of geometry including the effects of the discovery of non-Euclidean geometry; limit concept; need for axiomatic structures; twentieth-century problems. Current mathematics research and place of mathematics in today's world.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2022 Fall Term, 2021 Spring Term, 2019 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205310>)

MSSC 5320 Theory of Numbers (3 credits)

Integers, unique factorization theorems, arithmetic functions, theory of congruences, quadratic residues, partition theory.

Level of Study: Graduate

Last four terms offered: 2023 Spring Term, 2022 Spring Term, 2020 Spring Term, 2018 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205320>)

MSSC 5420 Foundations of Geometry (3 credits)

Modern postulational development of Euclidean and non-Euclidean geometries.

Level of Study: Graduate

Last four terms offered: 2023 Fall Term, 2022 Fall Term, 2021 Fall Term, 2020 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205420>)

MSSC 5450 Topology (3 credits)

Topological spaces, mappings, metric spaces, product and quotient spaces. Separation axioms, compactness, local compactness and connectedness.

Level of Study: Graduate

Last four terms offered: 2023 Spring Term, 2021 Spring Term, 2019 Spring Term, 2015 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205450>)

MSSC 5500 Theory of Differential Equations (3 credits)

Existence and uniqueness theorems, linear and non-linear systems, numerical techniques, stability.

Level of Study: Graduate

Last four terms offered: 2020 Fall Term, 2016 Fall Term, 2014 Fall Term, 2012 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205500>)

MSSC 5510 Elementary Partial Differential Equations (3 credits)

Fourier series, method of separation of variables, eigenfunction expansions, application of eigenfunctions to partial differential equations, Green's functions and transform methods.

Level of Study: Graduate

Last four terms offered: 2021 Spring Term, 2019 Spring Term, 2017 Spring Term, 2015 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205510>)

MSSC 5540 Numerical Analysis (3 credits)

Numerical solution of algebraic and transcendental equations, linear systems and the algebraic eigenvalue problem, interpolation and approximation, numerical integration, difference equations, numerical solution of differential equations and finite difference methods.

Level of Study: Graduate

Last four terms offered: 2023 Fall Term, 2022 Fall Term, 2021 Fall Term, 2020 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205540>)

MSSC 5630 Mathematical Modeling and Analysis (3 credits)

Construction and analysis of mathematical models from biological, behavioral and physical sciences.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2023 Spring Term, 2022 Spring Term, 2021 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205630>)

MSSC 5650 Theory of Optimization (3 credits)

Fundamental theorems describing the solution of linear programs and matrix games. Minimax, duality, saddle point property, simplex and specialized algorithms. Zero sum games, transportation and assignment problems, applications to economics.

Level of Study: Graduate

Last four terms offered: 2023 Spring Term, 2021 Spring Term, 2019 Spring Term, 2017 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205650>)

MSSC 5670 Applied Combinatorial Mathematics (3 credits)

Permutations and combinations, recurrence relations, inclusions and exclusion, Polya's theory of counting, graph theory, transport networks, matching theory.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2022 Spring Term, 2020 Spring Term, 2018 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205670>)

MSSC 5700 Theory of Probability (3 credits)

Random variables, distributions, moment generating functions of random variables, various derived probabilistic models and applications.

Level of Study: Graduate

Last four terms offered: 2023 Fall Term, 2022 Fall Term, 2021 Fall Term, 2020 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205700>)

MSSC 5710 Mathematical Statistics (3 credits)

Sampling theory and distributions, estimation and hypothesis testing, regression, correlation, analysis of variance, non-parametric methods, Bayesian statistics.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2023 Spring Term, 2022 Spring Term, 2021 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205710>)

MSSC 5720 Statistical Methods (3 credits)

Probability, discrete and continuous distributions. Treatment of data, point and interval estimation, hypothesis testing. Large and small sample method, regression, non-parametric methods. An introduction to the basic understanding of statistical methods. Applications-oriented.

Level of Study: Graduate

Last four terms offered: 2024 Summer Term, 2024 Spring Term, 2023 Fall Term, 2023 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205720>)

MSSC 5730 Introduction to R for Statistics and Data Science (1 credits)

An introductory course to the statistical analysis software R. Topics include basic R programming, importing and cleaning data, data visualization, performing descriptive and inferential statistics, and creating reproducible reports.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2023 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205730>)

MSSC 5740 Biostatistical Methods and Models (3 credits)

Introduction to the statistics of life science and the use of mathematical models in biology. Data analysis and presentation, regression, analysis of variance, correlation, parameter estimation and curve fitting. Biological sequence analysis, discrete and continuous mathematical models and simulation.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2023 Spring Term, 2022 Spring Term, 2020 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205740>)

MSSC 5750 Computational Statistics (3 credits)

Explores computational data analysis, an essential part of modern statistics. Introduces statistical computing including statistical programming, Monte Carlo simulation and parallel computing, smoothing and density estimation, implementing numerical methods in R (e.g., Expectation-Maximization algorithm), fitting models to data, statistical prediction and cross-validation.

Level of Study: Graduate

Last four terms offered: 2023 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205750>)

MSSC 5760 Time Series Analysis (3 credits)

Basic concepts of probability. Stationary time series. Autocorrelation and spectrum. Descriptive methods for time series data. ARMA and ARIMA models: estimation and forecasting. Identification and diagnostic techniques. Periodogram and spectral analysis. Use of software for time series analysis.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2022 Spring Term, 2020 Spring Term, 2018 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205760>)

MSSC 5770 Statistical Machine Vision (3 credits)

Object recognition and tracking for automatic machine vision systems. Topics include image representation, convolution, filter design, statistical deconvolution, discrete Fourier transform, automated object identification, text analysis, video object tracking and line tracing. Real-world applications such as object tracking within sequence of images, identification of item placement location in industrial settings, and autonomous lane departure identification. Additional topics may include object feature representations and statistical classification of objects. Computational implementation and examples utilize high-level programming language.

Level of Study: Graduate

Last four terms offered: 2024 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205770>)

MSSC 5780 Regression Analysis (3 credits)

Basic concepts of statistical inference, simple linear regression, multiple linear regression, diagnostic analysis, selecting the best equation, stepwise methods, nonlinear regression, use of statistical software.

Level of Study: Graduate

Last four terms offered: 2023 Fall Term, 2022 Fall Term, 2021 Fall Term, 2020 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205780>)

MSSC 5790 Bayesian Statistics (3 credits)

Bivariate, conditional and marginal distributions. The Bayesian philosophy, quantification of a priori information, prior, likelihood and posterior distributions. Bayesian linear models, posterior parameter estimation including maximum posteriori and marginal expectations. Topics may include numerical integration and Markov chain Monte Carlo techniques. Use of a high-level software package.

Level of Study: Graduate

Last four terms offered: 2023 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205790>)

MSSC 5931 Topics in Mathematical or Statistical Sciences (1-3 credits)

Topics selected from one of the various branches of mathematics or statistics. Specific topics to be announced in the Schedule of Classes.

Level of Study: Graduate

Last four terms offered: 2023 Summer Term, 2023 Spring Term, 2022 Fall Term, 2022 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%205931>)

MSSC 6000 Scientific Computing (3 credits)

Foundational methods and techniques of scientific computing in the mathematical and statistical sciences. Covers fundamental computational algorithms aimed toward applications in science and engineering. Students implement algorithms, and visualize and validate their outcomes. Further, students are introduced to and implement best programming practices.

Prerequisite: Calculus course or cons. of instr.; introductory statistics course or cons. of instr.; and programming competency in a high-level language.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2023 Spring Term, 2022 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206000>)

MSSC 6010 Computational Probability (3 credits)

A modern course in probability. Foundations of probability for modeling random processes with computational techniques. Topics include counting techniques, probability of events, random variables, distribution functions, probability functions, probability density functions, expectation, moments, moment generating functions, special discrete and continuous distributions, sampling distributions, transformation of variables, prior and posterior distributions, Law of Large Numbers, Central Limit Theorem, the Bayesian paradigm. Numerical and computational methods will be covered throughout topics.

Prerequisite: Three semesters of mathematics beyond calculus and MATH 4720 or equiv.

Level of Study: Graduate

Last four terms offered: 2023 Fall Term, 2022 Fall Term, 2021 Fall Term, 2020 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206010>)

MSSC 6020 Statistical Simulation (3 credits)

Elements of statistical simulation and modeling with applications. Generation of random variables, simulating statistical models, Monte Carlo method, Markov chains, birth-and-death processes, queues, variance reduction, Markov chain Monte Carlo (MCMC) methods and applications, bootstrapping, validation and analysis of simulated data.

Prerequisite: MSSC 6010 and programming competency in a high-level language.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2023 Spring Term, 2022 Spring Term, 2021 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206020>)

MSSC 6030 Applied Mathematical Analysis (3 credits)

Foundational topics in analysis considered from a modeling and numerical viewpoint. Emphasizes techniques of proof and approximation, and their role in the solution of problems arising in applications.

Prerequisite: Multivariable calculus and linear algebra.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2023 Spring Term, 2022 Spring Term, 2021 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206030>)

MSSC 6040 Applied Linear Algebra (3 credits)

Foundational linear algebra considered from a numerical viewpoint. Focuses on solutions of linear systems of equations, eigenvalues and eigenvectors, and transformations. Emphasizes and illustrates proof and numerical implementation using problems arising in applications.

Prerequisite: Multivariable calculus and linear algebra.

Level of Study: Graduate

Last four terms offered: 2023 Fall Term, 2022 Fall Term, 2022 Spring Term, 2021 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206040>)

MSSC 6090 Research Methods/Professional Development (1 credits)

Designed to introduce the process of research and communication of research in the mathematical and statistical sciences, including presentation and publication of research, preparation of grant proposals, and ethical considerations. May be repeated.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2023 Spring Term, 2022 Spring Term, 2021 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206090>)

MSSC 6110 Applied Discrete Mathematics (3 credits)

Applied discrete mathematics for the mathematics, engineering and computer science graduate student. Emphasis on graph theory and counting problems that serve as a foundation for research areas in the second term. Theory and applications are covered for topics including trees, graph coloring, chromatic polynomials, generating functions, recurrence relations, distinct colorings and Polya's Theorem.

Prerequisite: COSC 1020 and MATH 1450 or equiv.; MATH 1451 and MATH 2100 or equiv.

Level of Study: Graduate

Last four terms offered: 2008 Fall Term, 2006 Fall Term, 2003 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206110>)

MSSC 6120 Optimization (3 credits)

Principles of deterministic model building in operations research. Linear programming and duality. Dynamic and integer programming. Nonlinear optimization and parameter estimation.

Prerequisite: MATH 3100 or equiv.

Level of Study: Graduate

Last four terms offered: 2007 Fall Term, 2005 Fall Term, 2003 Fall Term, 1999 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206120>)

MSSC 6130 Dynamical Systems (3 credits)

Theory of discrete and continuous dynamical systems. Periodic solutions, bifurcations, chaotic systems, attractors, fractal dimension and simulation of these systems.

Prerequisite: MATH 4200 or equiv.

Level of Study: Graduate

Last four terms offered: 2007 Spring Term, 2005 Spring Term, 2001 Spring Term, 1998 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206130>)

MSSC 6210 Theory of Statistics (3 credits)

Brief review of sampling distributions, convergence, Central Limit Theorem and Law of Large Numbers. Estimation, testing hypotheses, regression and correlation analysis, non-parametric methods.

Prerequisite: MATH 4700 or equiv.

Level of Study: Graduate

Last four terms offered: 2009 Spring Term, 2007 Spring Term, 2005 Spring Term, 2003 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206210>)

MSSC 6220 Analysis of Variance and Covariance (3 credits)

Review of statistical inference. One-way layout and multiple comparison. Two-, three- and higher-way layouts. Latin squares, incomplete block and nested design. Analysis of covariance.

Prerequisite: MATH 4710 or equiv.

Level of Study: Graduate

Last four terms offered: 2009 Fall Term, 2007 Fall Term, 2005 Fall Term, 2003 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206220>)

MSSC 6230 Multivariate Statistical Analysis (3 credits)

Basic properties of random vectors, multivariate normal distribution, estimations of mean vector and covariance matrix, Wishart distribution, hypothesis testing, Hotelling's T^2 , multivariate analysis of variance, principal component analysis, factor analysis, canonical correlation analysis, classification and discriminant analysis. A high level programming language may be used.

Prerequisite: MATH 3100 or equiv; MATH 4710 or equiv.

Level of Study: Graduate

Last four terms offered: 2010 Spring Term, 2008 Spring Term, 2006 Spring Term, 2004 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206230>)

MSSC 6240 Design and Analysis of Scientific Experiments (3 credits)

Single factor, two-factor and multi-factor designs and their analysis, Latin-square design and its analysis; power analysis and sample size selection; 2^k factorial designs; confounding/blocking designs; orthogonality and orthogonal contrasts; 3^k factorial designs; response surface methodology.

Prerequisite: A course in statistical methods, such as MATH 4720 or equiv.

Level of Study: Graduate

Last four terms offered: 2022 Fall Term, 2021 Fall Term, 2020 Fall Term, 2019 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206240>)

MSSC 6250 Statistical Machine Learning (3 credits)

Multivariate data and exploratory analysis, random vector and multivariate normal distribution, multivariate linear regression, principal component and other dimensional reduction techniques, linear discriminant analysis, recursive partition and tree-based methods including classification tree and regression tree, cluster analysis, neural network and support vector machine.

Prerequisite: A course in statistical methods, such as MATH 4720, and a course in linear algebra, such as MATH 3100, MATH 4780 or equiv., cons. of instr.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2023 Spring Term, 2022 Spring Term, 2021 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206250>)

MSSC 6410 Real Analysis (3 credits)

Involves study of algebraic structures of real analysis, function spaces, introduction to linear operators, measure and integration theory, convergence theorems, limits, continuity and derivatives.

Prerequisite: MATH 4200.

Level of Study: Graduate

Last four terms offered: 2007 Fall Term, 2005 Fall Term, 2003 Fall Term, 2001 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206410>)

MSSC 6420 Algebra (3 credits)

Studies groups, rings, fields and vector spaces including Sylow's theorems, field of quotients of an integral domain, structure of finitely generated modules over a principal ideal domain, Galois theory of equations, ordered fields and classical groups.

Prerequisite: MATH 4120 or equiv.

Level of Study: Graduate

Last four terms offered: 2010 Spring Term, 2006 Fall Term, 2004 Fall Term, 2002 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206420>)

MSSC 6430 Logic and Set Theory (3 credits)

Naive set theory, first-order logic, elementary model theory, non-standard analysis, Godel's incompleteness theorems for elementary arithmetic, axioms for set theory, ordinal and cardinal arithmetic, the continuum hypothesis, methods of inner models and forcing for proving consistency and independence results.

Prerequisite: MATH 4120 or equiv.

Level of Study: Graduate

Last four terms offered: 2007 Fall Term, 2005 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206430>)

MSSC 6440 Topology (3 credits)

Metric spaces, fundamental topology notions, subspace topology, product spaces, quotient spaces, separation axioms, Tietze's theorem, compactness, metrization, uniform spaces, function spaces, homotopy relation, fundamental group, computing manifold groups.

Prerequisite: MATH 4200 or equiv.

Level of Study: Graduate

Last four terms offered: 2005 Fall Term, 2000 Fall Term, 1997 Fall Term, 1993 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206440>)

MSSC 6770 Innovations in Secondary Mathematics: Meeting the NCTM Standards (3 credits)

Online course designed for teachers of secondary mathematics. Emphasizes relevant NCTM standards through discussion, projects, and implementation in a secondary mathematics classroom. Mathematics content amplifies and extends selected topics of secondary mathematics. Topics vary. Credit may be earned multiple times if completed under a different topic.

Prerequisite: Cons. of dept. ch.; one term of calculus and access to an algebra or geometry class of secondary students; or cons. of course coordinator; admitted to MSST or College of Education.

Level of Study: Graduate

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206770>)

MSSC 6931 Topics in Mathematical or Statistical Sciences (3 credits)

Topics vary. Multiple enrollments allowed under different topics.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2021 Spring Term, 2019 Summer Term, 2019 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206931>)

MSSC 6952 Colloquium in Mathematical or Statistical Sciences (0-1 credits)

Research and scholarly presentations on selected topics in the mathematical or statistical sciences by visiting researchers, departmental faculty and graduate students.

Prerequisite: Grad. stndg.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2023 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206952>)

MSSC 6953 Seminar in Mathematics Curriculum Development and Material 1 (3 credits)

The historical evolution of mathematics learning theories and research-generated conceptions of mathematics learning; comparisons of various learning theories and their impact on research in mathematics learning; implications of research and learning theories on curriculum development; implications of mathematics learning research/theories on the teaching and learning of mathematics.

Prerequisite: Admitted to MSST or College of Education.

Level of Study: Graduate

Last four terms offered: 2011 Fall Term, 2008 Fall Term, 2003 Summer Term, 1994 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206953>)

MSSC 6954 Seminar in Mathematics Curriculum Development and Material 2 (3 credits)

Philosophy of education with particular attention to mathematics education; development by students of useful curricula in the form of teaching units, evaluation materials, and student and teacher bibliographies for specific topics, grade levels, and ability groups; aspects of supervision as related to the role of department chairperson.

Prerequisite: MSSC 6953; admitted to MSST or College of Education.

Level of Study: Graduate

Last four terms offered: 1989 Summer Session 2

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206954>)

MSSC 6960 Seminar in Mathematical or Statistical Sciences (0-3 credits)

Topics selected from one of the various branches of mathematics or statistics. Specific topics are announced in the Schedule of Classes.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2023 Fall Term, 2023 Spring Term, 2022 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206960>)

MSSC 6974 Practicum for Research in Mathematical or Statistical Sciences (1-3 credits)

S/U grade assessment.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2019 Summer Term, 2018 Fall Term, 2018 Spring Term, 2017 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206974>)

MSSC 6975 Practicum in Applied Statistics and Data Science (3 credits)

Provides students with the opportunity to explore real-world examples of data analysis as a statistical consultant.

Prerequisite: 3.000 MU GPA; completed at least 12 credit hours; cons. of the applied statistics dir. of graduate studies; or cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2024 Summer Term, 2023 Fall Term, 2023 Summer Term, 2022 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206975>)

MSSC 6995 Independent Study in Mathematical or Statistical Sciences (1-5 credits)

Faculty-supervised, independent study/research of a specific area or topic in mathematics or statistics.

Prerequisite: Cons. of instr. and cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2024 Summer Term, 2024 Spring Term, 2022 Spring Term, 2021 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206995>)

MSSC 6998 Professional Project in Mathematical or Statistical Sciences (0 credits)

SNC/UNC grade assessment.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2019 Summer Term, 2019 Spring Term, 2018 Spring Term, 2016 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206998>)

MSSC 6999 Master's Thesis (1-6 credits)

S/U grade assessment.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2024 Summer Term, 2024 Spring Term, 2023 Fall Term, 2023 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%206999>)

MSSC 8995 Independent Study in Mathematical or Statistical Sciences (1-3 credits)

In-depth research on a topic or subject matter usually not offered in the established curriculum with faculty and independent of the classroom setting.

Prerequisite: Cons. of instr. and cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2023 Fall Term, 2023 Spring Term, 2022 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%208995>)

MSSC 8999 Doctoral Dissertation (1-12 credits)

S/U grade assessment.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2023 Fall Term, 2023 Spring Term, 2022 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%208999>)

MSSC 9970 Graduate Standing Continuation: Less than Half-Time (0 credits)

Fee. SNC/UNC grade assessment. Designated as less than half-time status only, cannot be used in conjunction with other courses, and does not qualify students for financial aid or loan deferment.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2024 Spring Term, 2021 Spring Term, 2020 Fall Term, 2020 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%209970>)

MSSC 9974 Graduate Fellowship: Full-Time (0 credits)

Fee. SNC/UNC grade assessment. Designated as full-time status. If a student is already registered in other courses full time, this continuation course is not needed.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2012 Spring Term, 2010 Summer Term, 2009 Fall Term, 2009 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%209974>)

MSSC 9975 Graduate Assistant Teaching: Full-Time (0 credits)

Fee. SNC/UNC grade assessment. Designated as full-time status. If a student is already registered in other courses full time, this continuation course is not needed.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2021 Spring Term, 2019 Spring Term, 2017 Fall Term, 2016 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%209975>)

MSSC 9976 Graduate Assistant Research: Full-Time (0 credits)

Fee. SNC/UNC grade assessment. Designated as full-time status. If a student is already registered in other courses full time, this continuation course is not needed.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2020 Fall Term, 2019 Fall Term, 2019 Spring Term, 2018 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%209976>)

MSSC 9987 Doctoral Qualifying Examination Preparation: Less than Half-Time (0 credits)

Fee. SNC/UNC grade assessment. Allows a student to be considered the equivalent of less than half-time status. Requires that the student is working less than 12 hours per week toward their doctoral qualifying exam.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2018 Spring Term, 2017 Fall Term, 2017 Spring Term, 2016 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%209987>)

MSSC 9988 Doctoral Qualifying Examination Preparation: Half-Time (0 credits)

Fee. SNC/UNC grade assessment. Allows a student to be considered the equivalent of half-time status. Requires that the student is working more than 12 to less than 20 hours per week toward their doctoral qualifying exam. May be taken in conjunction with credit-bearing or other non-credit courses to result in the status indicated, as deemed appropriate by the department.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2016 Spring Term, 2015 Fall Term, 2015 Spring Term, 2012 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%209988>)

MSSC 9989 Doctoral Qualifying Examination Preparation: Full-Time (0 credits)

Fee. SNC/UNC grade assessment. Allows a student to be considered the equivalent of full-time status. Requires that the student is working 20 hours or more per week toward their doctoral qualifying exam. May be taken in conjunction with credit-bearing or other non-credit courses to result in the status indicated, as deemed appropriate by the department.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2018 Spring Term, 2017 Fall Term, 2016 Fall Term, 2016 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%209989>)

MSSC 9991 Professional Project Continuation: Less than Half-Time (0 credits)

Fee. SNC/UNC grade assessment. Allows a student to be considered the equivalent of less than half-time status. Requires that the student is working less than 12 hours per week on their professional project. Any professional project credits required for the degree should be completed before registering for non-credit Professional Project Continuation.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2023 Spring Term, 2022 Spring Term, 2021 Fall Term, 2021 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%209991>)

MSSC 9992 Professional Project Continuation: Half-Time (0 credits)

Fee. SNC/UNC grade assessment. Allows a student to be considered the equivalent of half-time status. Requires that the student is working more than 12 to less than 20 hours per week on their professional project. Any project credits required for the degree should be completed before registering for non-credit Professional Project Continuation.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2016 Summer Term, 2016 Spring Term, 2015 Summer Term, 2015 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%209992>)

MSSC 9993 Professional Project Continuation: Full-Time (0 credits)

Fee. SNC/UNC grade assessment. Allows a student to be considered the equivalent of full-time status. Requires that the student is working 20 hours or more per week on their professional project. Any professional project credits required for the degree should be completed before registering for non-credit Professional Project Continuation.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2018 Fall Term, 2018 Summer Term, 2018 Spring Term, 2016 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%209993>)

MSSC 9994 Master's Thesis Continuation: Less than Half-Time (0 credits)

Fee. SNC/UNC grade assessment. Allows a student to be considered the equivalent of less than half-time status. Requires that the student is working less than 12 hours per week on their master's thesis. All six thesis credits required for the degree should be completed before registering for non-credit Master's Thesis Continuation.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2022 Summer Term, 2019 Spring Term, 2018 Fall Term, 2018 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%209994>)

MSSC 9995 Master's Thesis Continuation: Half-Time (0 credits)

Fee. SNC/UNC grade assessment. Allows a student to be considered the equivalent of half-time status. Requires that the student is working more than 12 to less than 20 hours per week on their master's thesis. All six thesis credits required for the degree should be completed before registering for non-credit Master's Thesis Continuation.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2021 Spring Term, 2020 Fall Term, 2018 Fall Term, 2018 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%209995>)

MSSC 9996 Master's Thesis Continuation: Full-Time (0 credits)

Fee. SNC/UNC grade assessment. Allows a student to be considered the equivalent of full-time status. Requires that the student is working 20 hours or more per week on their master's thesis. All six thesis credits required for the degree should be completed before registering for non-credit Master's Thesis Continuation.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2021 Summer Term, 2018 Fall Term, 2018 Spring Term, 2017 Fall Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%209996>)

MSSC 9997 Doctoral Dissertation Continuation: Less than Half-Time (0 credits)

Fee. SNC/UNC grade assessment. Allows a student to be considered the equivalent of less than half-time status. Requires that the student is working less than 12 hours per week on their doctoral dissertation. All 12 dissertation credits required for the degree should be completed before registering for non-credit Doctoral Dissertation Continuation.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2021 Spring Term, 2020 Fall Term, 2019 Fall Term, 2018 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%209997>)

MSSC 9998 Doctoral Dissertation Continuation: Half-Time (0 credits)

Fee. SNC/UNC grade assessment. Allows a student to be considered the equivalent of half-time status. Requires that the student is working more than 12 to less than 20 hours per week on their doctoral dissertation. All 12 dissertation credits required for the degree should be completed before registering for non-credit Doctoral Dissertation Continuation.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2022 Fall Term, 2021 Spring Term, 2020 Fall Term, 2020 Spring Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%209998>)

MSSC 9999 Doctoral Dissertation Continuation: Full-Time (0 credits)

Fee. SNC/UNC grade assessment. Allows a student to be considered the equivalent of full-time status. Requires that the student is working 20 hours or more per week on their doctoral dissertation. All 12 dissertation credits required for the degree should be completed before registering for non-credit Doctoral Dissertation Continuation.

Prerequisite: Cons. of dept. ch.

Level of Study: Graduate

Last four terms offered: 2024 Summer Term, 2024 Spring Term, 2023 Fall Term, 2023 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=MSSC%209999>)
