Bioinformatics, MS

Biological Sciences Chairperson: Michelle Mynlieff, Ph.D.
Mathematical and Statistical Sciences Chairperson: Anne Clough, Ph.D.
Program Director: Lisa Petrella, Ph.D.

Bioinformatics website (https://www.marquette.edu/grad/programs-bioinformatics.php)

Degree Offered

Master of Science, students are admitted under Plan B (non-thesis option) but Plan A (thesis option) is also offered

Program Description

This interdisciplinary program is jointly offered by Marquette University and Medical College of Wisconsin. The program prepares students for a multidisciplinary career in the biomedical sciences using mathematics, statistics and computer science. It is designed to provide students quantitative tools for analyzing data and problems associated with molecular, cellular, physiological and particularly, genetic systems. Students may select courses from a list of approved courses offered by the following departments at Marquette: Computer Science; Mathematical and Statistical Sciences; Biology; Biomedical Engineering; and Electrical and Computer Engineering. In addition, courses are offered by the Department of Physiology and the Division of Biostatistics at Medical College of Wisconsin. The program meets the needs of recent undergraduates seeking an advanced degree as well as employed professionals interested in opportunities for career advancement.

Students may pursue the degree on a full-time or part-time basis. Many courses are offered evenings.

General Information

Students interested in applying to the program should consult the program website (https://www.marquette.edu/grad/programs-bioinformatics.php) for a list of currently approved courses and scheduled course offerings for the next term.

Special registration for this program is required, as courses are taken at both institutions. Students must register for BIIN 6947 Medical College of Wisconsin/BIIN-Joint Degree through Marquette University and for the matching MCW course through Medical College of Wisconsin.

Bioinformatics Master of Science

Students are admitted to the program under Plan B (non-thesis option), although with the co-directors' approval, students may elect to transfer to Plan A (thesis option). In both options below, courses taken for credit in this program must be from the list of courses approved by the Steering Committee. Exceptions must be approved by the Steering Committee.

PLAN B OPTION (33 CREDITS)

Students must complete 33 credit hours of course work, of which at least 18 hours must be earned in 6000-level courses and above. Plan B Option students must take at least 18 credits at Marquette University.

PLAN A OPTION (30 CREDITS)

Students must complete 24 credit hours of course work, of which at least 18 credit hours must be earned in 6000-level courses and above. Plan A Option students must take at least 15 credits at Marquette University. Students must also complete a master's thesis for 6 credit hours and pass an oral examination concentrated on the thesis.

ACCELERATED BACHELOR’S-MASTER’S DEGREE PROGRAM

The accelerated degree program in bioinformatics allows Marquette University students to earn both a bachelor’s degree and a master's degree in bioinformatics in five years. This option is especially well-suited for students interested in pursuing careers in data science with applications in biology or biomedical science. Interested students with at least junior standing must meet the following criteria in order to apply for the ADP:

- Students must have a minimum cumulative undergraduate GPA of 3.000.
- Students must be enrolled in the undergraduate bioinformatics minor/major or have completed BIOL 1001 General Biology 1, BIOL 3201 Genetics or BISC 4340 Human and Applied Medical Genetics, COSC 1020 Object-Oriented Software Design and COSC 2100 Data Structures by the end of the junior year.

Students participating in this program are granted early admission to the Graduate School and should complete 12 hours of approved graduate courses toward the bioinformatics master's during the senior undergraduate year that also count as part of the undergraduate credit hour requirement. The Graduate School administratively transfers credits for ADP students during the summer term each year.

For additional information, interested students should contact the program co-directors for the master's program in bioinformatics.

BIIN 6000 Introduction to Bioinformatics (3 credits)
The application of knowledge gained through previous course work in informatics, information systems, mathematics, medical and/or biological research to the design, development, implementation and evaluation of information systems and analysis methods applied to biomedical data.
Prerequisite: BIOL 1004 and CHEM 2112 which may be taken concurrently; and COSC 2100; and cons. of dept. ch.
Level of Study: Graduate
Last four terms offered: 2023 Spring Term, 2021 Spring Term, 2020 Spring Term, 2019 Spring Term
Schedule of Classes (https://bulletin.marquette.edu/class-search/?details&code=BIIN%206000)

BIIN 6931 Topics in Bioinformatics (3 credits)
Topics vary. Students may enroll more than once as the subject matter changes.
Prerequisite: Cons. of dept. ch.
Level of Study: Graduate
Schedule of Classes (https://bulletin.marquette.edu/class-search/?details&code=BIIN%206931)

BIIN 6947 Medical College of Wisconsin/BIIN-Joint Degree (1-8 credits)
Graduate-level course in selected areas of the life sciences offered at Medical College of Wisconsin.
Prerequisite: Cons. of dept. ch.
Level of Study: Graduate
Last four terms offered: 2024 Spring Term, 2023 Spring Term, 2021 Fall Term, 2021 Spring Term
Schedule of Classes (https://bulletin.marquette.edu/class-search/?details&code=BIIN%206947)

BIIN 6960 Seminar in Bioinformatics (1-3 credits)
Seminars in research and development tools and applications designed for M.S. in bioinformatics program.
Level of Study: Graduate
Last four terms offered: 2020 Fall Term, 2020 Spring Term, 2019 Fall Term, 2008 Spring Term
Schedule of Classes (https://bulletin.marquette.edu/class-search/?details&code=BIIN%206960)
BIIN 6980 Practicum in Bioinformatics (3 credits)
An opportunity to participate in the practice of research and/or development in the area of bioinformatics.
Prerequisite: Admitted to BIIN program; BIIN 6000; and cons. of dept. ch.
Level of Study: Graduate
Last four terms offered: 2024 Summer Term, 2023 Summer Term, 2022 Fall Term, 2022 Summer Term
Schedule of Classes (https://bulletin.marquette.edu/class-search/?details&code=BIIN%206980)

BIIN 6995 Independent Study in Bioinformatics (1-3 credits)
An in-depth study on a topic or subject matter usually not offered in the established curriculum with faculty and independent of the classroom setting.
Prerequisite: Admitted to BIIN program; cons. of dept. ch.
Level of Study: Graduate
Last four terms offered: 2023 Spring Term, 2021 Fall Term, 2019 Spring Term, 2017 Summer Term
Schedule of Classes (https://bulletin.marquette.edu/class-search/?details&code=BIIN%206995)

BIIN 6999 Master's Thesis (1-6 credits)
S/U grade assessment.
Prerequisite: Cons. of dept. ch.
Level of Study: Graduate
Last four terms offered: 2023 Spring Term, 2022 Fall Term, 2021 Summer Term, 2021 Spring Term
Schedule of Classes (https://bulletin.marquette.edu/class-search/?details&code=BIIN%206999)
