Degree Offered
Master of Arts, Plan B only

Program Description
The J. William and Mary Diederich College of Communication graduate program in communication prepares students for intellectual, artistic, professional and ethical leadership in a complex technological and multicultural world. It uses a core of common knowledge, values and communication skills to improve understanding of communication as a cultural and social process and to develop the skills necessary for success in constantly changing information environments. Students can specialize in one of two areas: communication and media studies, or digital communication strategies. The master’s program takes an integrative approach that emphasizes how contemporary communication practices, technologies and professions intersect and encourages students to learn from one another’s specialized interests.

The communication and media studies specialization focuses upon deeper skills of analysis and research in communication and prepares students for advanced roles in their careers or for doctoral studies. The digital communication strategies specialization focuses upon the planning and use of communication technologies and prepares students to work as leaders in their professional fields.

Students are encouraged to tailor the degree to their individual interests by choosing from the varied proseminars or topics courses offered in communication, or from courses offered in other Marquette graduate programs, including business, marketing, English, psychology and political science.

Both specializations require a problem-based, interdisciplinary, organizationally grounded educational experience. Milwaukee offers a rich urban landscape for communication study, with a wide array of advertising and public relations agencies, major corporations, consulting firms, broadcast stations, general interest and specialized newspapers and magazines, and online publications. Students in the program have the opportunity to collaborate with each other and with faculty and learn from one another’s experiences as writers, designers, multi-media specialists, consultants, trainers and marketers.

Upon the completion of the master of arts degree program in communication, graduates will be able to:

1. Apply research-based, theory-informed knowledge to the identification and solution of real-life issues in the field.
2. Apply ethical decision-making skills in a variety of communication situations.
3. Integrate knowledge from the discipline of communication with the chosen specialization area.

Master of Arts in Corporate Communication
In addition to our master of arts in communication, the J. William and Mary Diederich College of Communication offers a master of arts in corporate communication in conjunction with the Graduate School of Management. This 30 credit-hour program combines advanced course work in communication and business to prepare students for an executive-level communication role. See the Corporate Communication bulletin page (https://bulletin.marquette.edu/business-administration/corporate-communication-ma/#text) for more information on this master of arts and its related five-year accelerated degree program.

Dual Programs of Study
M.A. in Communication and M.A. in Political Science
M.A. in Communication and M.A. in International Affairs
The J. William and Mary Diederich College of Communication, in conjunction with the Department of Political Science, offers a program of dual study leading to a master of arts degree in communication and a master of arts degree in political science or international affairs. Dual degree students are able to complete both degree programs in less time than if both degrees were pursued separately.

Students seeking admission into the dual degree program must submit to the Graduate School separate applications for admission to both programs, including two sets of required documentation, and must meet the admission requirements of each program. Acceptance into one program does not guarantee acceptance into the other. If a student is accepted into one program and not the other, the student can still choose to accept the admission offer from the first program but would not be considered a dual degree student. Because students are officially admitted into only one Marquette University graduate program at a time, applicants must indicate which program they intend to pursue and complete first, although once accepted for admission to both programs, students may take courses from both departments. Upon completion of the first program, the student is officially admitted to the second program for completion of the remainder of the dual program.
Dual degree students count 9 credits of course work in each program toward the required course work credits of the other program. Thus, 9 of the 30 credits required for the master of arts degree in communication come from POSC courses, and 9 of the 30 credits required for the master of arts degree in political science or international affairs come from COMM courses.

Communication Master of Arts

Specializations: Communication and Media Studies, Digital Communication Strategies

Students are required to choose a specialization and must complete 30 credit hours of course work. Only 3 credit hours total may be at the 5000 level. If approved by the director of studies, up to 6 credits hours may be taken in COMM 6995 Independent Study in Communication. Students must earn a grade point average of at least 3.000 with no grades below a C.

Specialization Details

Communication and Media Studies

This specialization provides students with the theoretical and methodological foundation needed for positions of intellectual leadership in communication professions or for doctoral studies. The proseminar format encourages students to discover their individual interests within a broad spectrum of communication concepts, theories and research methods.

The proseminars are organized under six important contemporary topics; their exact content and title vary depending upon term and instructor. Proseminars may be repeated under different titles.

To complete the communication professions and society specialization, students must choose 3 proseminars from the following list and one additional COMM course at the 6000 level. Each course has variable topics and may be repeated once.

Digital Communication Strategies

This specialization provides students with the conceptual foundation and practical training they need to help organizations plan and execute effective digital communication strategies. Courses help students identify and plan communication strategy, develop digital content, and measure the effectiveness of communication messages within a variety of professional contexts, including advertising, public relations and journalism. Students may tailor their course selections to meet their professional needs and interests.
The digital communication strategies specialization offers topic-based courses that take an applied approach to the strategic use of digital communication technologies. Specific titles vary depending upon term and instructor and topics courses may be repeated under different titles.

To complete the digital communication strategies specialization, students choose 3 courses from the following list and one additional COMM course at the 6000 level. Each course has variable topics and may be repeated once.

**Accelerated Bachelor’s-Master’s Program**

The accelerated degree program in the College of Communication allows Marquette University students to earn both a bachelor of arts degree with a major in digital media, advertising, communication studies, corporate communication, journalism, media studies, public relations or performing arts and a master of arts degree in communication in five years. Students complete 9-12 hours of approved graduate credit in communication during their senior undergraduate year that count as part of the undergraduate credit hour requirement.

Upon completion of the first term as a master’s candidate, the student must petition the Graduate School to transfer the courses taken as an undergraduate to the master’s degree. All remaining master’s degree requirements may be completed during the subsequent summer, fall and spring terms.

Candidates for admission should have undergraduate junior status, have completed at least 3 upper-division communication courses and should have a major GPA of at least 3.500 and an overall GPA of at least 3.200. Candidates for admission should submit transcripts and three letters of recommendation but need not submit GRE scores. Candidates for admission to this program should notify the associate dean for graduate studies and research of their intentions.
