Degree Offered

Doctor of Philosophy

Program Description

The doctor of philosophy (Ph.D.) program prepares nurse-scientists in a substantive research area of science aimed to improve health and health care. Through specialized courses in education, graduates will be prepared to advance the discipline of nursing as teachers and scholars. The College of Nursing faculty have expertise within the following substantive research foci: community-engaged research; person-centered research; pedagogical research.

There are two entry routes to the Ph.D. program: post-graduate and post-baccalaureate. Applicants to the doctor of philosophy (Ph.D.) program in nursing should have graduated with a nursing degree which may be a bachelor of science in nursing, a master's or a doctor of nursing practice (D.N.P.) degree in nursing from a nationally accredited program.

General Information

Overview

Upon acceptance to the graduate program, students must complete and submit the Graduate Student Health Status Report form. Information on CPR requirements, physical examination and immunization status, including results of a T.B. skin test and proof of Wisconsin R.N. licensure (or Indiana R.N. licensure for students in the adult-gerontology adult acute care nurse practitioner - Indianapolis M.S.N.) and a criminal background check and drug screen must be submitted to a web-based clinical data tracking program (castlebranch.com (<https://www.castlebranch.com/>)). Results of a T.B. skin test must be provided annually, an influenza vaccine is required annually, and a drug screen must be completed three months prior to beginning clinical practicum courses. Students are responsible for the cost of these services. The information is required for progression within the program.

Clinical courses in the College of Nursing are restricted to students in the degree program. Various clinical facilities in the greater Milwaukee area, throughout Wisconsin and in northern Illinois are utilized for clinical experiences. Indiana based programs have clinical experiences in Indiana. While Marquette University is concerned about the professional advancement of its students, facilitates the process of certification, and provides excellent educational opportunities, it cautions that professional success in a chosen field requires, above all else, constant development of individual abilities, personal initiative and a professional sense of commitment to fulfill all appropriate legal and technical responsibilities. Hence, the university assumes no responsibility for the success of the students in obtaining educational certification or other types of professional licensure.

Licensure in Wisconsin or eNLC state is mandatory for employment with compensation.

Progression Policy

The College of Nursing Academic Progression Policy for Graduate Students applies to all course work taken during the academic year and summer sessions. The policies of the Graduate School on academic performance, professional integrity, professional performance, academic dishonesty and student conduct are all followed by the College of Nursing. A variety of responses to problems in any of these areas may be implemented, depending on the nature of the problems encountered. Warnings, remediation plans, probation, immediate withdrawal from clinical or laboratory activities, suspension and dismissal are all possible actions under these policies. Students are bound by all Graduate School policies including those related to repeating a course. See the Graduate School bulletin for information on academic performance (<https://bulletin.marquette.edu/grad/policiesofthegraduateschool/#academicperformance>).

Additionally:

1. Grades of F, ADW, WA, and WF are not acceptable in any course and are grounds for dismissal from the program. If the student is allowed to remain in the program, the course in which these grades were earned must be repeated with minimum grade of B-. The timing of when the course may be repeated is on a space-available basis and successful repeat of a course does not guarantee that the student will retain a space in their program.
2. A cumulative grade point average of at least 3.000 must be maintained each term.
3. For graduate students in advanced practice options, a minimum grade of B- in NURS 6030 Pathophysiological Concepts for Advanced Nursing Practice, NURS 6032 Pharmacology for Advanced Nursing Practice, NURS 6035 Advanced Health Assessment Across the Lifespan, and all specialty theory courses is required. Ph.D. students are required to earn at least a B- in all courses. A student who earns less than a B- in any of the above-mentioned courses is required to repeat the course. The timing of when the course may be repeated is on a space-available basis and may significantly delay program progression. The student is not guaranteed that they will retain a space in the advanced specialty program.

4. Graduate students in advanced practice options who earn a grade less than a B- in a clinical course will be dismissed from the program. If a student successfully appeals the dismissal decision and is allowed to continue in the program, the student must repeat the clinical course and earn at least a B- grade. The timing of when the course may be repeated is on a space-available basis. The student is not guaranteed that they will retain a space in their program. Students in the Direct Entry M.S.N. program must achieve at least a B- in a clinical course or the course must be repeated. The timing of when the course may be repeated is on a space-available basis and successful repeat of a course does not guarantee that the student will retain a space in their program.
5. A student may be removed from a clinical course and dismissed from a program at any time due to unsafe clinical performance, lack of preparedness to care for patients, unprofessional behaviors or other patient-safety related issues. See the Graduate School bulletin for information on academic performance (<https://bulletin.marquette.edu/grad/policiesofthegraduateschool/#academicperformance>).
6. A lack of substantial and visible progress toward completion of program requirements, including failure to complete the qualifying examination, thesis, dissertation or capstone project may be grounds for dismissal.
7. No more than two different courses may be repeated due to unsatisfactory grades. The student must abide by university policy governing the repeat of any courses. See the Graduate School bulletin for information on repeated courses (<https://bulletin.marquette.edu/grad/policiesofthegraduateschool/#repeatedcourses>).

Attendance

The College of Nursing follows this university Attendance policy (<https://bulletin.marquette.edu/undergrad/academicregulations/#attendance>). Students should refer to course syllabi, as each course may have additional attendance requirements.

Laboratory/Clinical Courses

Attendance at all clinical experiences (includes skills labs and simulation) is a demonstration of professionalism and accountability. It is the opportunity for the student to be evaluated by the clinical faculty in performance of clinical skills, assessment of clinical judgement and successful mastering of course objectives. Clinical attendance and completion of all clinical related course work is mandatory within the time frame of the given semester.

It is the student's responsibility to notify the course instructor about any absence prior to the start of the clinical time. Being tardy, or not being at a clinical site on an assigned clinical day will result in an absence. Any absence may negatively impact the student's ability to achieve course objectives thereby impacting their grade. In alignment with the university absence policy in the Graduate Bulletin (<https://bulletin.marquette.edu/grad/policiesofthegraduateschool/#academicperformance>), a student may be withdrawn from a course due to excessive absences. Absences that prevent a student from meeting all course objectives will result in failure of the clinical course.

Special Fees

1. \$60 – Cardiopulmonary Resuscitation (CPR) Certification (approximate fee). (This certification must be maintained throughout the student's program through biannual recertification.)
2. \$124 – Health requirements and criminal background check initial fee (approximate fee) and drug test. Additional costs may be required for immunizations, antibody titers and physical examinations. ([castlebranch.com](http://www.castlebranch.com) (<https://www.castlebranch.com/>)).
3. \$50 - Clinical Placement fees (Approximate fees for individual clinical site requirements; based on individual site request; may vary every term).
4. \$90 – A one-time clinical tracking system (Typhon (<http://www.typhongroup.com/products.html>)) fee for M.S.N. and D.N.P. students in the specialty clinicals.

Additional Fees for Direct Entry M.S.N. Students

1. \$500 – Non-refundable deposit, which is then applied toward tuition, for students admitted to the Milwaukee and Pleasant Prairie locations.
2. \$570 – Assessment Tests, predictor examination, and NCLEX review course for the M.S.N. program for Non-Nursing Graduates. Paid in increments throughout the program. (Approximate fee. Exact amount based upon vendor costs in effect at time of registration.)
3. \$300 – Uniforms for the M.S.N. program for Non-Nursing Graduates. (Approximate fee. Must be purchased through a private vendor. Vendor list available from the College of Nursing.)
4. \$175 – Assessment Equipment for the M.S.N. program for Non-Nursing Graduates. (Stethoscope \$70. Sphygmomanometer \$60. Approximate fee. Exact amount based upon vendor costs in effect at time of registration. Must be purchased through a private vendor.)
5. For Milwaukee based Direct Entry students, a laptop computer that meets the minimum recommendations (<https://www.marquette.edu/its/help/getting/studentpc.shtml/>) specified by the university is required. All Direct Entry students are required to have a computer with webcam, microphone and internet access.

Program Fees for Nurse Anesthesia Students

Acceptance Fee

- The College of Nursing requires that all students accepting an offer of admission to the graduate nurse anesthesia educational program submit a non-refundable deposit of \$1,000 to the Graduate School to be guaranteed a spot in the program. The deposit is then applied toward tuition and fees after the students register for the initial fall term.

Annual Fees

- Annual, nonrefundable, technology and evaluation fee of \$2,761 to be paid in full at the start of each fall term.
- Annual malpractice insurance fee of \$275 to be paid in full at the start of each fall term. Nurse anesthesia students are required to hold malpractice insurance coverage as identified by the program with a policy start date of 9/1 for each year enrolled in the program. This coverage must be maintained throughout the program. A lapse in malpractice coverage results in removal of students from clinical site rotations.

Additional Expenses

- Associate membership with the American Association of Nurse Anesthetists (AANA) (approximately \$200) Purchased in fall of the first year in the program, and membership is valid for the duration of nurse anesthesia educational program enrollment.
- BLS/ACLS/PALS certification: variable cost - Active BLS/ACLS/PALS certifications must be maintained throughout program enrollment.
- Text books and other personal instructional aids.
- Any costs incurred while on rotation to various clinical sites, attending professional meetings or external review courses.
- Scrub attire and lab coat (approximately \$100). Students are required to purchase one set of scrub attire and one lab coat.
- Clinical verification process: approximately \$125 first year in program; \$40 in years two and three of the program. Nurse anesthesia students must maintain compliance with all clinical-related requirements for the duration of program enrollment or risk being removed from clinical site rotations.

Accreditation

The bachelor of science in nursing, master of science in nursing, doctor of nursing practice, and post-graduate APRN certificate programs at Marquette University College of Nursing are accredited by

The Commission on Collegiate Nursing Education (CCNE)
655 K Street NW, Suite 750
Washington, DC 20001
(202) 887-6791
<http://www.aacnnursing.org/CCNE/>;

Nursing Doctorate

The doctor of philosophy (Ph.D.) program prepares nurse-scientists in a substantive research area of science aimed to improve health and health care. Through specialized courses in education, graduates are prepared to advance the discipline of nursing as teachers and scholars.

Program Learning Outcomes and Performance Indicators

Students will be able to:

1. Develop knowledge that will impact health, healthcare, policy, and/or nursing education.
2. Synthesize research findings to guide nursing knowledge development.
3. Design and conduct research.
4. Develop, test and refine theories as a basis for nursing science.
5. Analyze complex and intersecting patterns of inequities to understand, inform and advance health equity.
6. Disseminate knowledge verbally and in writing that will impact health, healthcare, policy and/or nursing education.
7. Implement evidence-based teaching and learning principles at course and program levels.
8. Synthesize research findings to advance innovation and provide leadership in nursing education.

The College of Nursing faculty have expertise within the following substantive research foci: Community-engaged research, Person-centered research and Pedagogical research.

Post-Master's Ph.D. Curriculum

The post-master of science in nursing Ph.D. program is a 57-credit program with course work in the following five categories:

Foundational methods (15 credits)

Code	Title	Hours
HEAL 8008	State of the Science	3
HEAL 8010	Health Equity and Disparity	3
NURS 8000	Nursing Knowledge Development	3
NURS 8001	Foundations for Scholars	3
PHIL 6430	Philosophy of Knowledge	3
Total Credit Hours:		15

scientific method (18 credits)

Code	Title	Hours
HEAL 8002	Qualitative Research	3
HEAL 8003	Quantitative, Mixed and Multi-Methods Research	3
HEAL 8015	Applied Statistics for Health Sciences	3
HEAL 8016	Advanced Applied Statistics	3
HEAL 8018	Advanced Measurement in Health Care	3
NURS 8980	Nursing Research Seminar and Practicum	3
Total Credit Hours:		18

pedagogical methods (9 credits)

Code	Title	Hours
Required Course:		
HEAL 6101	Foundations of Learner-Centered Teaching	3
Choose two of the following:		
HEAL 6102	Curriculum Design and Implementation	3
HEAL 6103	Assessment and Evaluation of Individuals and Programs in Health Care Education	3
HEAL 6104	Facilitating Learning in Clinical Environments	3
HEAL 6105	Facilitating Learning in Classroom and Online Environments	3
NURS 8981	Residency in Nursing Education	3
Total Credit Hours:		9

COGNATES (3 CREDITS)

Three (3) graduate-level credits supportive of the dissertation research, such as course work or engagement in direct application of the dissertation topic, theory, methods or data analysis. Requires approval of Ph.D. program director.

DISSERTATION (12 CREDITS)

A doctoral student will follow a program of study defined, in conjunction with an adviser, using an approved Doctoral Program Planning Form. The student must complete all requirements listed on the Doctoral Program Planning Form, pass a qualifying examination and successfully defend a dissertation to complete the program. The doctoral dissertation must represent an original research contribution and show high attainment and clear ability to do independent research.

Post-Baccalaureate Ph.D. Curriculum

The post-bachelor of science in nursing Ph.D. program requires an additional 18 credits to the 57 credits listed above. Required courses are:

Code	Title	Hours
NURS 6000	Theoretical Foundations of Nursing	3
NURS 6007	Ethics, Policy and Health Care Advocacy	3
NURS 6009	Organizational and Systems Leadership	3
NURS 6010	Research and Evidence as a Foundation for Nursing	3
Six additional credits to be determined with adviser.		6
Total Credit Hours:		18

NURS 5930 Special Topics in Nursing (1-3 credits)

In consultation with the Office of the Registrar, may be offered as an experimental course to students, in order to evaluate and determine if a course should be incorporated into the regular curriculum of a program, or can also be used for courses that are in the curriculum approval process pipeline; however, are not yet officially approved; therefore cannot appear in the Bulletin. Once the same course has been offered twice as a Special Topic, it cannot be offered again until it moves through the curriculum approval process and is approved with a regular curriculum course number or one of the standard numbers below. This course number may not be used for a single student studying a particular subject matter.

Level of Study: Graduate

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=NURS%205930>)

NURS 5931 Topics in Nursing (3 credits)

Selected topics in Nursing. The topics will be designated in the Schedule of Classes.

Level of Study: Graduate

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=NURS%205931>)

NURS 6000 Theoretical Foundations of Nursing (3 credits)

Exploration of the theoretical basis of nursing practice. Includes nursing, learning, cultural, leadership, developmental and communication theories.

Prerequisite: Admitted to NURS program.

Level of Study: Graduate

Last four terms offered: 2023 Summer Term, 2023 Spring Term, 2022 Fall Term, 2022 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=NURS%206000>)

NURS 6003 Essentials for Nursing Practice (3 credits)

Exploration of the nursing profession focusing on communication, the impact of the nurse, fostering an appreciation for human diversity and social justice.

Prerequisite: Admitted to Direct Entry M.S.N. program.

Level of Study: Graduate

Last four terms offered: 2023 Summer Term, 2023 Spring Term, 2022 Fall Term, 2022 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=NURS%206003>)

NURS 6005 Concepts and Interventions for the Promotion of Mental Health - Theory (3 credits)

Focuses on understanding the biological, environmental, cultural, intrapersonal and interpersonal factors influencing mental health; development of skills for assessment of mental status and emotional state and intervention modalities; simulated practice responding to common psychiatric problems and immediate interventions for psychiatric emergencies.

Prerequisite: NURS 6011, NURS 6013.

Level of Study: Graduate

Last four terms offered: 2023 Summer Term, 2023 Spring Term, 2022 Fall Term, 2022 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=NURS%206005>)

NURS 6007 Ethics, Policy and Health Care Advocacy (3 credits)

Impact of ethics and policy on nursing practice, advocacy and social justice in healthcare.

Level of Study: Graduate

Last four terms offered: 2023 Summer Term, 2023 Spring Term, 2022 Fall Term, 2022 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=NURS%206007>)

NURS 6009 Organizational and Systems Leadership (3 credits)

Study of organizations and systems to impact patient outcomes. Examines concepts of nursing leadership, quality and safety, and health care technology.

Prerequisite: Admitted to NURS program.

Level of Study: Graduate

Last four terms offered: 2023 Summer Term, 2023 Spring Term, 2022 Fall Term, 2022 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=NURS%206009>)

NURS 6010 Research and Evidence as a Foundation for Nursing (3 credits)

Develop knowledge of research and evidence-based practice processes. Analyze and translate evidence for practice to improve individual, family and community health outcomes.

Prerequisite: Statistics.

Level of Study: Graduate

Last four terms offered: 2023 Summer Term, 2023 Spring Term, 2022 Fall Term, 2022 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=NURS%206010>)

NURS 6011 Health Assessment and Fundamentals Theory (3 credits)

Develops knowledge and skills needed to complete comprehensive and focused assessments and apply foundational skills for select nursing interventions across the lifespan. Emphasizes the development of clinical reasoning and communication skills in the provision of culturally appropriate, ethical and safe evidence-based care.

Prerequisite: NURS 6013 which must be taken concurrently; admitted to Direct Entry M.S.N. program.

Level of Study: Graduate

Last four terms offered: 2023 Summer Term, 2023 Spring Term, 2022 Fall Term, 2022 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=NURS%206011>)

NURS 6013 Health Assessment and Fundamentals Lab/Clinical (2 credits)

Perform appropriate comprehensive clinical assessments using therapeutic communication techniques. Differentiate between normal and abnormal assessments findings. Develop a collaborative plan of care and perform appropriate nursing interventions.

Prerequisite: NURS 6011 which must be taken concurrently.

Level of Study: Graduate

Last four terms offered: 2023 Summer Term, 2023 Spring Term, 2022 Fall Term, 2022 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=NURS%206013>)

NURS 6015 Pharmacotherapeutics for Nursing Practice (3 credits)

Basic principles of pharmacology and pharmacotherapeutics as applied to patients across the life span. Includes nursing implications for administration, patient teaching, and evaluation of safety and effectiveness.

Prerequisite: Admitted to the Direct Entry program.

Level of Study: Graduate

Last four terms offered: 2023 Summer Term, 2023 Spring Term, 2022 Fall Term, 2022 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=NURS%206015>)

NURS 6030 Pathophysiological Concepts for Advanced Nursing Practice (3 credits)

Investigation of normal physiologic and pathologic mechanisms of disease as a foundation for clinical assessment, decision-making and management. Establishment of knowledge base necessary for the provision of health care in an advanced nursing specialty.

Prerequisite: Admitted to NURS program.

Level of Study: Graduate

Last four terms offered: 2023 Summer Term, 2023 Spring Term, 2022 Fall Term, 2022 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=NURS%206030>)

NURS 6032 Pharmacology for Advanced Nursing Practice (3 credits)

Preparation of the advanced practice nurse in the area of pharmacology across the lifespan. Topics include pharmacokinetics, pharmacodynamics, major drug categories, and prescribing responsibilities.

Prerequisite: Admitted to NURS program.

Level of Study: Graduate

Last four terms offered: 2023 Summer Term, 2023 Spring Term, 2022 Fall Term, 2022 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=NURS%206032>)

NURS 6035 Advanced Health Assessment Across the Lifespan (3 credits)

Develop advanced assessment skills to systematically collect, analyze, and interpret data to make sound clinical judgments related to a client's health status across the lifespan. Includes appropriate diagnostics and their interpretation (2 credits didactic, 1 lab credit).

Prerequisite: Admitted to NURS program.

Level of Study: Graduate

Last four terms offered: 2023 Summer Term, 2023 Spring Term, 2022 Fall Term, 2022 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=NURS%206035>)

NURS 6037 Management of Episodic Health Problems (3 credits)

Assessment, differential diagnoses, interventions and evaluation of adults and older adults with acute, episodic, self-limiting conditions.

Prerequisite: NURS 6032 and NURS 6035.

Level of Study: Graduate

Last four terms offered: 2022 Fall Term, 2021 Fall Term, 2020 Fall Term, 2020 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=NURS%206037>)

NURS 6100 Community and Population Health Nursing (3 credits)

Integration of community health nursing theory and public health sciences to provide a theoretical basis for aggregate-level care in partnership with communities.

Prerequisite: NURS 6011, NURS 6013, NURS 6030.

Level of Study: Graduate

Last four terms offered: 2023 Summer Term, 2023 Spring Term, 2022 Fall Term, 2022 Summer Term

Schedule of Classes (<https://bulletin.marquette.edu/class-search/?details&code=NURS%206100>)

NURS 6201 Nursing Concepts and Interventions for the Care of Adults/Older Adults 1 - Theory (3 credits)

Focuses on holistic nursing care and clinical reasoning in prevention, assessment and management of select health issues including end-of-life care. Includes concepts and evidence-based practice across the care continuum related to problems with select cardiac, respiratory, digestive and endocrine conditions.

Prerequisite: NURS 6013, NURS 6030, NURS 6015; NURS 6005, NURS 6500, and NURS 6970, which may be taken concurrently.

Level of Study: Graduate

Last four terms offered: 2023 Summer Term, 2023 Spring Term, 2022 Fall Term, 2022 Summer Term
