### Advanced Standing Credit

Marquette University awards advanced standing credit or course placement to matriculated degree-seeking students related to Advanced Placement, College Level Examination Program, Marquette Credit by Exam, International Baccalaureate, Cambridge A-Levels, Project Lead the Way and DANTES Subject Standardized Test course work or examination scores.

Decisions about the applicability of advanced standing credit toward Marquette Core Curriculum requirements are made by college offices in consultation with the director of the Marquette Core Curriculum.

### Advanced Placement (AP)

Students may be awarded credit for Advanced Placement (AP) course work based on suitable examination scores. Marquette University faculty in the disciplinary area review the content of the AP curriculum to determine course equivalents and scores required for credit to be awarded.

The following chart lists the advanced placement subjects accepted at Marquette and the amount of credit that may be awarded for each score. AP credit awards are similar to transfer credit in that they are not calculated into the student’s cumulative grade point average. Students with AP credit awards are encouraged to consult with respective departments prior to registering for more advanced courses.

Additionally, pre-medical or pre-dental students should consult with the health professions adviser before accepting AP credits.

---

1. Those students planning to attend medical or dental school are advised not to accept AP credit or placement in physics and should consult with the health professions adviser.

2. Science and engineering majors should note that credit received does not include lab credit. Labs must be completed at Marquette.

Note: No credit or placement is granted for scores of 1 or 2. AP code is 1448. Revised May 2023.

Cambridge A-Levels

Marquette University reviews A-Level course work for credit based on course content. In order to be reviewed, applicants must submit a copy of the syllabus of each course for which they are seeking credit. Email syllabi to admissions@marquette.edu.

Credit by examination

Marquette recognizes that students by virtue of independent study, previous training or experience may already possess mastery of the content of some courses in which they have not been formally registered. To enable students to enrich or accelerate their course of study, the university provides for the establishment of academic test credit by means of a Marquette Credit by Exam (MCBE) and/or the College Level Examination Program (CLEP).

Test credits do not include grades; are not calculated into the Marquette GPA; do not factor into the credit load of the student (full-time, part-time); cannot be used to repeat a Marquette class; and, cannot be used to satisfy the Residency requirement.

In addition, there are other policies relating to these two exams:

1. Students must register for MCBE or CLEP and take these exams before the end of their third term at Marquette. This deadline excludes the summer term.
2. Courses available for MCBE or CLEP are determined by the college in which the subject matter resides, and students wishing to take a MCBE or CLEP credit must submit a request for such an examination to that college office. The decision of the college is final.
3. To qualify for an MCBE or CLEP exam, students must be:
   a. Enrolled in a degree program at Marquette.
   b. Registered for other courses at Marquette for the term in which the exam is requested.
4. Students may not earn credits via the MCBE or CLEP for courses they have previously taken or audited (regardless of the institution at which the course was taken).
5. MCBE or CLEP may not be taken in any subject matter more elementary than that for which students are currently enrolled and/or for which students have previously received credit or been placed into.
6. Students must pay a fee for the MCBE credits prior to taking the exam.
7. A C or better must be earned on the MCBE for credit to be awarded; if less than a C is earned, the MCBE is recorded on students' records, indicating that no credit was earned.
8. CLEP credit awards are determined by the score earned (see below).
9. MCBE and CLEP can only be attempted once for any course.
10. A maximum of 30 credits may be earned through MCBE and/or CLEP.

College Level Examination Program (CLEP) Score Chart

General information on CLEP costs and test centers may be obtained from The College Board (http://www.collegeboard.com/clep/).

**International Baccalaureate (IB)**

Students may be awarded credit for International Baccalaureate (IB) course work based on suitable examination scores. Marquette University faculty in the disciplinary area review the content of the IB curriculum to determine course equivalents and scores required for credit to be awarded.

The following chart lists the IB courses accepted at Marquette and the amount of credit that may be awarded for each score. IB credit awards are similar to transfer credit in that they are not calculated into the student’s cumulative grade point average. Students with IB credit awards are encouraged to consult with respective departments prior to registering for courses in the freshman year. Additionally, pre-medical or pre-dental students should consult with the health professions adviser regarding IB credits.

**Note:** No credit is granted for scores of S1-S6. Revised May 2023.

### Project Lead the Way (PLTW)

Students may be awarded credit for Project Lead the Way (PLTW) course work based on suitable end-of-course assessment scores. A distinguished score level is required for credit to be awarded. Marquette University faculty in the disciplinary area review the content of the PLTW course work and end-of-course assessment to determine course equivalents. The end-of-course assessment scores should be sent directly from the myPLTW student account to admissions@marquette.edu.

The following chart lists the PLTW end-of-course assessments that are awarded credit with a distinguished score. PLTW credit awards are like transfer credit in that they are not calculated into the student’s cumulative grade point average. Students with PLTW credit awards are encouraged to consult with respective departments prior to registering for courses in their freshman year.

Principles of Engineering  GEEN 9290: 3 cr.
Medical Interventions  BISC 9290: 3 cr.

**Note:** The following Stanine scores are considered to be equivalent to Distinguished and therefore lead to the credit identified in the chart above for the specified courses: 7 or higher (Civil Engineering and Architecture, Computer Integrated Manufacturing, Digital Electronics, Human Body Systems, Principles of Biomedical Science and Medical Interventions), 8 or higher (Introduction to Engineering Design, Principles of Engineering). Revised May 2021.

**DANTES Subject Standardized Test (DSST)**

Students may be awarded credit for suitable scores earned on DANTES Subject Standardized Test (DSST) examinations. The maximum number of total credits that students can earn by DSST examination is 30. Marquette University faculty in the disciplinary area review the content of DSST examinations to determine course equivalents.

The following chart lists the DSST examinations that are awarded credit based on the specified score. DSST credit awards are like transfer credit in that they are not calculated into the student's cumulative grade point average. Students with DSST credit awards are encouraged to consult with respective departments prior to registering for courses in their first year.
