

Academic Resource Center

The Academic Resource Center (ARC) at Marquette University empowers students to reach their full academic potential through evidence-based support and individual guidance. Located in the Lemonis Center for Student Success, the ARC offers free tutoring, academic coaching, and peer mentoring. Our tutoring program provides accessible, high-impact support across a wide range of historically challenging courses, helping students build confidence and deepen their understanding. Grounded in cognitive science, our academic coaching helps students develop effective study habits, manage time and stress, and take ownership of their learning. Learn more at the ARC website (<https://www.marquette.edu/academic-resource-center/>).
