

Student Educational Services

The Office of Student Educational Services (OSES) offers a range of academic support services at no charge to students. Services include academic coaching, tutoring, college success strategies, time management and workshops to campus groups. OSES sponsors two special programs: The Urban Scholars Program, a four-year scholarship program providing ongoing mentoring, leadership development and service opportunities for high achieving low-income, first generation college students and the Emerging Scholars Program (ESP) which provides interested freshmen with a five-week summer program and specialized advising during the first year of college. For more information, visit the Student Educational Services website (<http://www.marquette.edu/oses/>).
