Majors and Minors Overview

Majors

Majors in the College of Business Administration are offered in accounting, business analytics, business economics, innovation and entrepreneurship, finance, human resource management, marketing, information systems, international business, operations and supply chain management, and real estate; students also may earn a major in general business. Students majoring in any of the majors offered by the College of Business Administration must be resident in that college to complete the major(s) and earn the corresponding degree.

Minors

The college also offers minors to non-business students in business administration, innovation and entrepreneurship, human resources, information systems, marketing and operations and supply chain management.

While non-degree students may not earn a minor, courses are also available for credit or audit to non-degree students with the proper prerequisites. The assistant dean is assigned as the academic adviser for part-time students.
