

# Spanish

The Spanish program at Marquette provides students with the opportunity to develop linguistic proficiency in one of the most widely spoken languages in the world while learning about the rich and diverse cultures of Latin America, Spain and the Latino communities in the United States. The goal of the undergraduate program is twofold: to master all four skills of language acquisition (speaking, understanding, reading and writing), and to gain in-depth knowledge of content areas related to language, linguistics, literature, culture and film of the Spanish-speaking world. Majors in Spanish may combine studies with other disciplines in the humanities, social sciences or sciences. Students considering careers in education, international business, medicine, law, government or communications are particularly encouraged to pursue a double major or a minor in Spanish. Two distinct majors are offered: Spanish Language, Literature, and Culture, with special concentrations including one for Education majors; and Spanish for the Professions, with concentrations in either Business or Health. Both majors also offer curricular concentrations designed to meet the needs of heritage and native speakers of Spanish. An accelerated five-year B.A./M.A. degree is also offered in Spanish, affording enhanced concentration on language skills, cultural and literary competency, and critical thinking skills for use in fields such as business, health, and international relations.

Minors may also choose to concentrate on Spanish Language, Literature, and Culture or Spanish for the Professions. The minor consists of six to seven courses (18-22 credit hours), excluding SPAN 1003 Intensive Elementary Spanish, and SPAN 2001 Intermediate Spanish 1.

The Klingler College of Arts and Sciences also offers an Interdisciplinary Latin American Studies major or minor (<http://bulletin.marquette.edu/undergrad/helenwayklinglercollegeofartsandsciences/interdisciplinarymajmin/latinamericanstudies>) and an Interdisciplinary LatinX Studies minor (<http://bulletin.marquette.edu/undergrad/helenwayklinglercollegeofartsandsciences/interdisciplinarymajmin/latinxstudies>) for those students who would like to combine their language skills with other disciplines.

## Spanish B.A./M.A. Accelerated Degree PROGRAM

The Department of Languages, Literatures and Cultures offers an accelerated five-year B.A./M.A. degree as well as the traditional two-year master of arts degree program in Spanish. Both programs are designed to provide students with a broad background in Spanish language, literature and culture.

The majority of the department's graduates have entered teaching careers, continued on to doctoral studies or secured a position in business, non-profit organizations or government. Students in the program form a small and relatively intimate group. Graduate seminars are kept small, averaging ten students, and students are given individual guidance throughout their course of study.

This five-year program is designed for the student majoring in Spanish who is interested in continuing the study of Spanish language, literature, culture or Spanish for the Professions. The program is conceived for students who are interested in studying an extra fifth year in order to concentrate on their language skills, cultural and literary competency, critical thinking skills, as well as their ability to use Spanish effectively in the fields of business, health, international relations and other professional fields.

Students pursuing the accelerated B.A./M.A. program in Spanish complete the requirements for the major in Spanish Language, Literature and Culture or Spanish for the Professions (30-34 credit hours) in addition to the master of arts degree in Spanish requirements (30 credit hours). Up to four courses (12 credit hours) of course work taken at the graduate level (SPAN 5000/6000) completed during the senior undergraduate year can count toward both the undergraduate and graduate degrees. The student's fifth year consists of the completion of six graduate level courses (18 credit hours) in fulfillment of the remaining master's degree course and area requirements, as well as the master's written and oral comprehensive examinations. Upon completion of the first term as a master's candidate, the student must petition the Graduate School to transfer the SPAN 5000/6000 graduate level courses taken as an undergraduate to the master's degree.

Should a student be denied admission to the master's degree program, the graduate level courses can be counted toward the requirements of the bachelor of arts degree major in Spanish.
