The Marquette Philosophy department is a community of teachers and scholars who aim to enable students in all disciplines by developing interpretive, critical, analytical and communicative skills necessary for personal, intellectual and moral development, cultural literacy and achievement in the complexities of life in the twenty-first century.

In addition to its role in the Marquette Core Curriculum, the department offers a major with four concentrations which students can select based on their interests and educational goals: History of Philosophy; Social, Political and Legal Philosophy; Ethics and Values; and Philosophy of Science and Mind. The skills developed in the major are applicable to any subject matter and in any context. They are sought after by employers in many fields and help to explain why philosophy majors on average obtain the highest overall scores on the LSAT (Law School Admissions Test) and Graduate Record Exam (GRE) exams, and are able to find careers in many different fields.

Philosophy is an investigation of the enduring questions facing humanity: What is the human being? How ought we to live? What is our relationship to the world around us? What is our relationship to the transcendent? Philosophy encourages students to be reflective about their lives. Philosophy asks students to evaluate critically the civilization in which they live while emphasizing the communal nature of human existence and our need to live with others.

Major in Philosophy

The major in philosophy consists of ten courses (30 credit hours), including four required courses (12 credit hours), three philosophy electives (9 credit hours), and three philosophy courses (9 credit hours) in one of the four areas of concentration (History of Philosophy; Social, Political and Legal Philosophy, Ethics and Values, or Philosophy of Science and Mind) listed below.

Philosophy B.A./M.A. Accelerated Degree Program

The Department of Philosophy offers an accelerated degree program which allows students to earn both their B.A. degree and M.A. degrees in Philosophy within in a five-year time period.

Those who have completed an M.A. in philosophy have gone on to excellent philosophy PhD programs or law schools, and gained employment in the non-profit and private sectors. Graduate courses in our program offer students the possibility to pursue topics of interest to them in more depth than they are able to in undergraduate classes. These courses couple smaller class sizes and more opportunities for participation with an emphasis on the refinement of student research skills.

Students accepted into the program may transfer up to 12 credits of approved 5000-plus level courses into their graduate program. Undergraduates participating in this program are granted early admission to the graduate school and are allowed to take specific graduate-level courses during their junior and senior years.

To be considered for admission to the B.A./M.A. five-year program, applicants must formally apply to the philosophy department in their junior year at Marquette University and have achieved a minimum cumulative undergraduate GPA of 3.000.

For additional information about requirements contact the philosophy department.

One upper-division Humanities Disciplinary Honors Languages, Literatures and Cultures (CLAS, FREN, GRMN, LATN, SPAN), History, Philosophy or Theology course 3
PHIL 4999H       | Honors Senior Thesis 3

Total Credit Hours 12

* The seminar series prepares students to write a Humanities Disciplinary Honors project and helps to mentor them during the writing of the project. While enrolled in HOPR 3954H Developing a Humanities Honors Project and Writing a Research Proposal students also secure individual faculty mentors for their Humanities Disciplinary Honors project.

** The instructor is the student’s faculty mentor for their Humanities Disciplinary Honors project.

Notes:

- Two upper-level departmental Humanities Disciplinary Honors courses, one in student’s major and one that must be in another humanities department are required. Each must be a 3-credit, graded course and designated as a departmental Honors course. These courses are normally taken during student’s junior year. The H courses in the student’s major count toward total major credits and toward other major requirements where applicable. The H course in another humanities department does not count toward major requirements.
- A Humanities Disciplinary Honors committee made up of representatives from all five humanities departments regularly decides on a broad theme for Humanities Disciplinary Honors program, to last at least two years, and individual faculty and departments submit courses that fit that theme.
- The Honors Humanities committee designates an appropriate number of Humanities Disciplinary Honors courses (These courses may also be taken by non-Honors students depending on the number of Humanities Disciplinary Honors students in the program).
- Students may take these upper-level departmental Humanities Disciplinary Honors courses concurrently or in different terms; they should have finished at least one before beginning their independent projects.

Academic Standards

Students must have a 3.200 cumulative overall grade point average for entry into the Humanities Disciplinary Honors Program. Students must achieve a 3.200 cumulative grade point average in the above 12 credit hours required in order to graduate with Humanities Disciplinary Honors. Students who complete both Core Honors and Humanities Disciplinary Honors earn a Comprehensive Honors degree. Students must have a 3.200 cumulative GPA to graduate with this degree. Students admitted to Humanities Disciplinary Honors become part of the University Honors Program and are eligible for Honors research fellowships and Honors study-abroad scholarships. If an Honors student drops below a 3.200 in any given term during the junior year or any subsequent year, the student receives a letter of warning from the director. If a student drops below a 3.200 cumulative GPA, they are placed on University Honors Program academic probation; if they do not achieve a 3.200 cumulative GPA by the end of the following term, they are removed from the program. Students must earn a grade of C or better in all courses required for Humanities Disciplinary Honors and the Comprehensive Honors degree.

Eligibility

Humanities Disciplinary Honors is designed to be completed during students’ junior and senior years. Sophomores interested in pursuing Humanities Disciplinary Honors should enroll in HOPR 2954H Introduction to Honors in the Humanities during their sophomore year. Sophomores are eligible to apply to the program near the end of the spring term as long as they meet the 3.200 minimum cumulative GPA requirement.

Application

Students apply for admission to the Philosophy department. Application materials can be obtained in person from the department office.
